

Shortage of Motor Cars During Coming Months Is Condition Facing Buyers

By JIM HOULIHAN,

Emerging from a war period which threatened to seriously hamper the future growth of the automobile and motor track industry, viewing this condition, of course, from a purely local viewpoint. January: 1, 1919, found every firm engaged in the business in Alameda county, and for that matter throughout the United States, doubtful indeed of the prospects during the year recently January 1, 1920, offered a sit-

tation in which every man engaged in the sale of cars or trucks was scheming and planning to the keenest degree of commercial intelligence on means for preparing to take care of, duirng 1920, the greatest volume of sales their respective branches or agencies had in any single twelves. Today finds a condition multiplied in its percentage of un-certainty over a likelihood to seoure in any small measure the allotments which will be necessary to meet a demand that is expanding beyond the means to appease the cry for cars, and still more cars.

Manufacturing conditions and transportation difficulties in Detroit, Cleveland, Indianapolis and other important centers spread something like a pall of gloom over distributors in California. yet, dark as may seem the future. trust to the ingenuity of the Oakland, San Francisco and Los angeles dealer to make superhuman efforts if necessary in the merry battle to keep shipments rolling westward. Agents in large points across the Rockies may be engaged in a like fight for required alloiments, however, there line of argument torthcoming from the bay district motor car chiefs at factory headquarters, in times such as the present one and the chances are reasonably good that the Pacific Coast will get inore than its share of curtailed

anreasoned line of argument that car prices will go lower than the existing standar?. Such a condition will not occur for at least two years, if it comes about then for, every element entering into the manufacture of either car or truck is sailing on a rising cost market. Labor demands more and is getting it. Material makers keep jumping prices and they get

Prophets tell us that when the present abnormal export trade starts to decline, then, and then only will there be a nossible curhing and later a reduction in the price of commodities of all sorts. How true the predictions of these wise men will prove out, months to come, alone, will tell. For the present, the man who waits for a lower price in the ear he hopes to buy will have a long, lonesome period during which the Onija board will tell him he is missing many healthful outings.

Thee oming months will witness the greatest touring era California has ever experienced. Resort port reservations for the summer months which: promise to tax to the limit, the room in their hotels Yosemite

camps will open 'we weeks earlier' than has been their custom, and one favored place in this land of wonders, Camp Gurry, will be prepared, on May I, to handle a vol-ume of business which usually comes about July Fourth. Tahoc, Feather River districts, Lake. Sonoma. Napa and Santa Cruz county rendezvous' are shaping plans now to enlarge facilities far

beyond any previous capacities. Road building under state and county supervision will be conducted on a scale which promises to blanket California in the next year with a net work of concrete highways unexcelled anywhere.

The TRIBUNE has tried to do ils mite in making touring a more enjoyable sport to the thousands county motorists in the operation of its Touring Eureau. More than ten thousand miles of California Nevada roads were surveyed last senson and the mogram the next few months calls for as equally extensive a mapping sched-ule. Before July 1 The TRIBUNE will map the Pacific Highway into from Portland south, by way of Grant's Pass, Crescent City and The map to Southern Eureka. The map to Southern California will be revised and

brought up to date. The TRIBUNE has made a continuous fight for an enlarged traffic squad. It has been repeatedly pointed out that there are many downtown crossings in Oak-land in need of continuous protection for both pedestrians and motorists. Also has it been shown that the squad detailed to watch speeders should be a larger one. The latter efforts have already borne fruit and an announcement from Commissioner Morse several days ago indicates that within a fow weeks all of the main inter-sections in the central part of Oakland will be carefully guarded.

The TRIBUNE Automotive Section is published each Sunday with the sole idea of making it inter-esting to the motorist. The com-monly accepted type of press agent publicity finds little sympathy in The TRIBUNE office, much less does the "star writer," who offers it for publication. This newspaper does not grage the volume of

Invited

An evidence of the extent to which utomobile ferry travel has increased on three routes which are extensivey used by Oakland, Alameda and Berkeley motorists, may be quickly sleaned from the figures published elow, compiled under the direction of John K. Bulger, supervising in-spector of steam vessels. The Martinez-Benicla system

The Martinez-Benicla system hauled the largest number of passengers of the three lines named last ear, having an increase over 1918 of approximately 17,000. Rodeo-Vallejo was a close second in the figures. A comparison cannot very vell be made over the previous year in considering their increase because he service did not start until July, 1918.

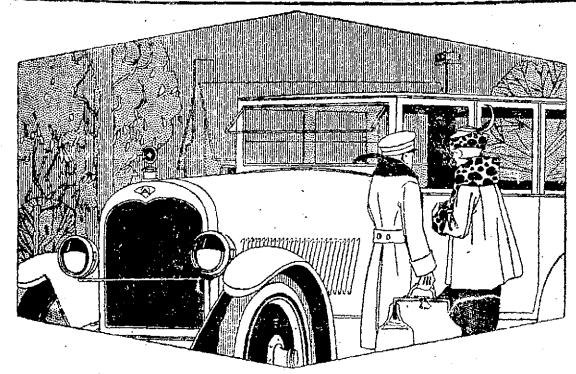

The most remarkable percentage increase is shown by the Richmond-Marin ferry line, its 1919 total being 206,748, as against 133,075.

Tabulated totals for the three lines follow:

MARTINEZ BENICIA FERRY 1915. 24,082 1917. 265,880 1914. 62,237 1918. 296,574 1915: 79,895 1019. 313,570 1916...148,149 RICHMOND SAN RAFAED FERRY 1915...51,209 1918...133,075 1916...43,590 1919...206,748

--Leadership in balanced construction

From coast to coast the stamp of approval has been put on the principle of balanced design and construction as it is embodied exclusively in the American Balanced Six.

It is the fact that has forced its builders to double the size of their factories at Plainfield, New Jersey, and to establish a second great plant at Greensboro, North Carolina, where the American will be built for distribution in the South alone.

Come! See the new American Balanced Six Sextet! It combines perfectly the desire of discriminating motorists for a car of refined aristocratic beauty and unusual roadability.

Visit our show rooms and let us show you how the principle of balance has been correctly applied in the construction of the light weight American Six, known the nation o'er as the "Smile Car."

Make the Maxwell Thriftv

EVERAL million dollars have been expended to provide more eleganec, more refinement, more comfort to the current Maxwells. It is in ever so many ways a superior appearing car; superior, too,

But not a single pound of weight has been added to burden the work of its great engine!

Therefore, despite the many processes of improvement, it doesn't cost a penny more to run a Maxwell than it did a year ago.

The underlying principle of every Maxwell is to give economic transportation.

This means light weight.

But it means strong steels, as well.

It is no easy trick to provide both lightness and strength in metal. Such a rare combination means high cost steels.

And you would find, if you compared a Maxwell with any car, that it equaled that car pound for pound in fine metals.

How such steels affect your pocketbook is obvious. 1. They are light in weight and hence give more mileage on a

gallon of gasoline. 2. As they are fine steels they give long and uninterrupted wear.

Which are but two of many reasons for that definite tendency of world-wide friendship towards Maxwell.

In six years nearly 400,000 have found their answer to the motor car question in a Maxwell.

This year 100,000 Maxwells are being produced. This will supply but 60% of the demand.

A Snug Bearing Fit Through All Temperatures

TN motor cars of conventional de-L sign the bearings are backed with bronze. And bronze and aluminum, under atmospheric changes, expand and contract more rapidly than steel. Thus in the motor car of common design, winter temperatures cause the aluminum crankcase and bronze

oring backs to contract more than crankshaft of steel. The result is a "pinching" of bearings and difficulty in starting.

In the new series Marmon the bearings are backed with cast iron. And cast iron varies almost exactly as the crankshaft. Thus a uniform bearing clearance is maintained through all ranges of temperature and engine speed. Having this uniform rate of expansion and sufficient structural strength to resist the binding tendency of the aluminum, Marmon bearings insure a snug fit at all temperatures.

We shall be glad to explain other features of the new Marmon Series 34 and to demonstrate its extraordinary riding qualities

All Men Know-

---Wherever you go you hear it said---Buick is a good car.

---Years of faithful service have steadily spread Buick reputation and popularity throughout the world.

---Buick long service, comfort, ease of control and the powerful, economical Valve-in-Head Motor of exclusive design have made it the recognized standard in motor car service.

--- In city or hamlet, on asphalt, sand or clay, the Buick owner has full confidence of reaching his destination with certainty.

"The largest distributors of automobiles in the world"

Pioneer Builders of Valve-in-Head Motor Cars

Little Mary Miles Minter likes motor cars and owns two, one of which she has affectionately nicknamed "Peppy." It is not hard to guess why she would call it that, Mary likes to make pictures from the ordinary run of movie stuff and likewise wants her motor cars to look different, so that is why she is the proud owner of two special custom-built ears of which there are no exact duplicates in the country.

Mary fells in love in lots of her series she has gentired in that was it.

tice she has acquired in that way it was easy to fall in love with an Anthony special touring car on a Packard Twin-Six chassis. It was one of the first of the beveledge cars to reach the coast and was distinctive in its lines and color, so Mary proposed even before leap year and the car accepted the responsible

job of carrying Mary around wher ever Mary wanted to go. Then Mary fell in love again, this time with a three-passenger sport roadster which had been custom-built to the order of the Anthony firm and while the touring car still is a prized possession the roadster was needed for Mary's own particular ranning

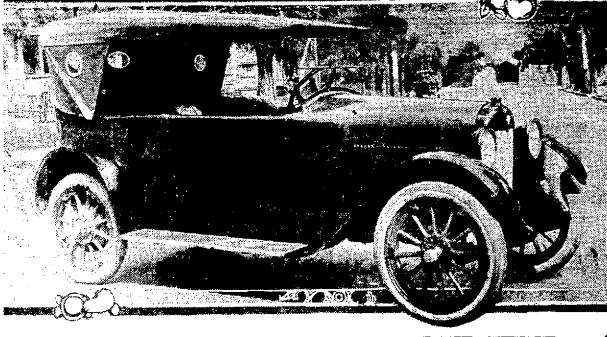

Two individual seats for driver and passenger makes for companionship and prevents crowding, while a third seat in the tonneau of clover leaf design accomodates the crowd, that is when three are a crowd. A disappearing top which folds away in the space behind the rear seat leaves every line of beauty in the car disclosed. In fact, when the top is down Mary says the car reminds here or Annette Kellerman in many ways, as it is shapely and not over-adorned with top or trimmings.

NEW COMFORTS

When automobiles were first marketed, their use was limited rather to special occasions rather than for every-day service. Because the first comes a thing to be used impulsive-cars lacked protection against wind. It and habitually, rather than upon duet and special occasions the more

The Notable New Six

It's the Cleveland Six. Not really new, either, for the factory began deliveries last Summer and since then the Cleveland has gone out over the country into the hands of thousands of owners. And these owners say they are delighted with it. There is every good reason why they should be delighted with it. For the Cleveland Six is really an extraordinary car.

We cannot tell you how good the Cleveland Six is. You must ride in it and drive it to know. This experience will convince you of • the power and pick-up and speed and flexibility of this exclusive Cleveland-built motor.

It will convince you of the comfort of the car, contributed to so much by the low underslung spring construction and the wide soft seat cushions.

You will be amazed at the case of handling your Cleveland, how lightly it steers and shifts, and at the instant positive action of its brakes.

There isn't any other light car that will give you so much of all that you wish, and at such a fair price.

Come let us show you what a car the Cleveland is -

Essex Almost Doubles Light Car Endurance

Essex Has Performance Like the Costliest Fine Cars-Its World Endurance Record Has Never Been Rivaled

The most important thing Essex has proved is that weight and size are no longer necessary to finest car quality.

Its 3037 miles in 50 hours is a world endurance record. The test was official. Supervisors of the A. A. A. certified the Essex stock chassis in every detail.

Never before was a car driven at top speed for 50 hours. The grind was equal to years of road use. Yet the Essex showed no meas urable wear.

What car, the Essex size and weight, can even attain a mile-a-minute speed, much less keep it up for 50 hours?

Such Endurance as You Want in Your Car

These decisive tests proved Essex not only the supreme performer of the light car field. but they showed that the moderate priced. reconomical Essex has such endurance and dependability as few large, high priced cars

Greater size could add nothing to Essex. It has the qualities, weight and size are built to give--riding comfort, solidness, distinction and smooth, quiet pace. But in addition it has fuel, oil and tire economy. And its great durability means freedom from repair costs and positive dependable transportation.

Essex is easy to operate. Driving does not fatigue. Its quick response to the lightest touch and its smooth, restful comfort in motion, account for this.

That is why so many women are Essex owners. They appreciate its safety, too. Its controls are simple and instantaneous. It makes fast time with security, even in difficult traffic.

Essex Wins On Quality Minus Useless Weight

Essex won recognition on the issue of finest quality without useless weight and size. That issue is uppermost today.

You will take pride in your Essex from the first. Its beauty, luxurious fittings and its performance give it distinction everywhere. And time will increase your respect for it. You will come to rely absolutely on its dependability. You will find it always ready for any demands you may make.

These are reasons why Essex set a world's sales record in its first year. And orders are now so far ahead it is certain even that unrivaled mark will be surpassed this year.

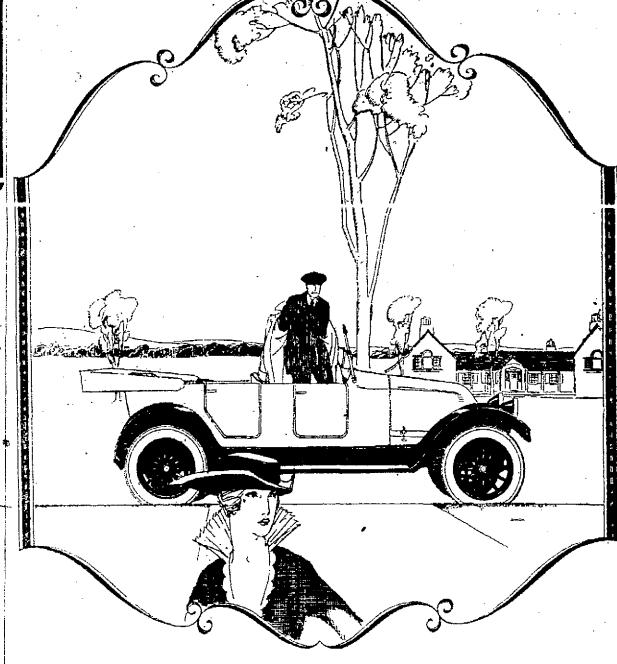

Thousands, realizing this, are placing their orders now. We advise that you do the same, to avoid disappointment,

manufacturing center. Another automobile accessory is now being manufactured here and from this point will be distributed over the entire automobile world.

This latest product was discovered

by Captain Griffin Halstead, war vet-eran and son of Murat Halstead. Cincinnati editor and publisher. Hal-stead says that fair treatment of Oakland capitalists brought him to this city to carry on the manufacture

of his product.

For a number of years Haistead was connected with the Standard Oil Company of New Jersey and discovered the formula for "Spring-Eez" while acting as a lubricating

expert.
The discovery of Spring-Lez and the process by which it is manufactured is due to an accident. In the latter part of 1916 Hal-stead was experimenting in his laboratory in Washington one even-ing with some mineral oils.

LIQUID DEVOURS RUST

An explosion took place. Looking over the damage he noticed a liquid had formed and was climbing up a piece of metal that had rust at the top and not at the bottom. After this material had reached the rust it was found that the rust would immediately come of

Right then it occurred to him that if he could locate the exact temperature and conditions under which this peculiar product was precipifated and combine it with a lubri-cant he would have a product that would accomplish a useful purpose.

After months of continuous experiment he succeeded in chemically combining the peculiar product with an affinity for the exide of iron (or rust) with a lubricant. The result was Spring-Ecz. This product, says Halstead, will penetrate between the spring leaves, disintegrates the rust and at the same time deposits a

MANY DEMAND UNUSUAL AUTO

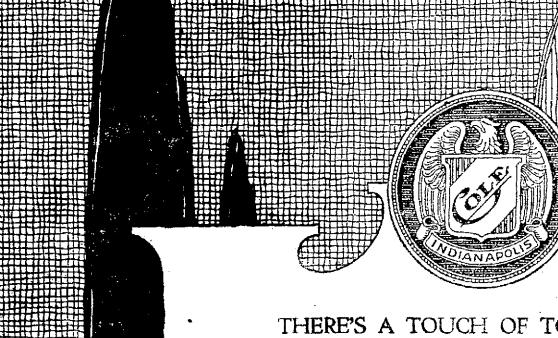

When motor cars became a national necessity a few years ago, the average manufacturer had only high productions in mind. Their aim was to fill the present great demand, and as a result the large field of motorists who did desire a unique and especially built motor vehicle, were left with only rapidly put-together and accombled ones.

assembled cars.
The rapid growth of the Barley Motor Car Company during the past three or four years is due to the fact that that company is headed by a man of great vision, one who foresaw the great demand for a mo-tor car of the future as far back as 1914, and kept working toward that goal, until today the product of his dreams in years past has set the pace for other high-grade motor cars to

"The motor car industry is full of The motor car moustly is fair to successes of a similar nature, but few have arisen to the front with such rapidity as the Barley Motor Cars Company."

12th and Jackson Streets. 3080 Broadway Oakland 4076. Oakland 2933

When it became necessary to put aside peace time production to hurry trucks and tanks, guns and shells to the men on the fighting line, fifteen experimental models of Overland 4 were shipped from To-Jedo to Denver, there to begin this most unusual and exhaustive testing trip. This western tryout was all a part of these two years of demon-strations, during which the car, instrations, during which the car, in-troducing the new three point spring suspension, was driven over 250,000 miles of the worst roads by America. From Denver, the Overland 4 cars struck the trail to the top of Lookout mountain and Palmer lake, and thence up Pike's peak until an altitude of 10,000 feet was reached. By pulling down fences and de-touring agrees fields the testing

the way was through melting snow and deep sticky mud. The narrow roads are twisted into a skein of short dangerous turns, which require the utmost skill in driving in the best of weather, and are particu-larly treacherous in the spring of the year. At points, the grade to Raton is so steep and rocky as to resem-

ble a rough-hewn stairway.

Into storied New Mexico, then, the caravan took up the second leg of its tour. In this country, if you make way at all, you must be pre-pared to ford many streams and climb like insects up the sides of deep, rocky gullies. When you are free of the rocks at Springer, New Mexico, you have before you long stretches of slippery, slimy mud, knee deep along what highways the country affords on the trail to the Glorietta mountains. From the Glorietta mountains the trail led

OAKLAND, CALIFORNIA, SUNDAY MORNING, MARCH 21, 1920.

W-PAGES 1 TO 8

NO. 36:

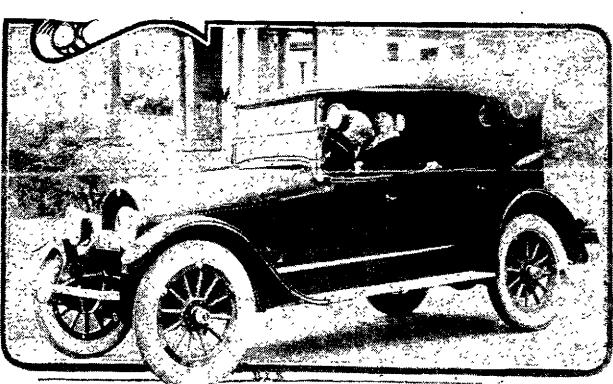

The Haynes company during the coming fiscal year, will continue to build both the six and twelve cylinder types of motors, according to Phimp S. Cole, Havnes distributor in Oakland, who has but recently returned from a lengthy visit to the big factory at Kokomo, Ta He says: In the six-cylinder motor there

is a decided lack of vibration. Where there is no excessive vibration or where it is reduced to a minimum the life of the motor is proportionately increased and the operating expense consequently operating expense consequently accreased. The power impulses of the six-cylinder motor overlap to such a degree that a smooth motion is effected. The motor of six cylinders is a highly depend-able type and decidedly economical and there are, perhaps, today more six-cylinder cars in use than any other type.

However, there are personal tastes to be satisfied in the automobile business the same as in other lines. And the public has approved the tweive-cylinder type of motor. The Havnes company, in recognition of the demand for twelve-cylinder cars will devote a certain part of the factory to their manufacture.

One noticeable advantage onf the twelve-cylinder type is its unusual flexibility. In crowded traffic or in any place where frequent sear shifting is necessary, the extreme flexibility of the MRS. H. G. MEINECKE OF ALAMEDA IN A HANDSOME FOUR-PASSENGER STEPHENS Salient Six Sportster delivery of which she recently took from Brasch & McCorkle of Oakland.

twelve-cylinder motor is of particular advantage.
In the twelve-cylinder motor the interlapping of the power impules is even more pronounced. For example, take a young boy rolling a hoop down the street. To make this hoop go a given distance, let us say the boy hits the hoop six times. Now have the boy hit the hoop twelve times to go the same distance. In hitting

when the hoop is hit twelve times to cover a given distance. In other words, when the boy applied twelve power impulses to the hoop the impulses overlapped to a greater degree than when the boy applied only six impulses.

LARGEST PLUG FACTORY The largest factory in the world levoted exclusively to the manufacture of spark plugs is at Toledo, Ohio. Thirty-five million plugs were the hoop six times the force must Ohio. Thirty-five mocessarily he a trifle greater than produced last year.

Construction Begins Upon Auto Building

Ground has just been broken by he Franklin Automobile Company for a new seven-story warehouse and manufacturing building with a floor space aggregating 200,000 square feet, according to advices just received from the factory at Syracuse. The structure will cost \$600,000.

One does not have to go back to

\$10.000 and it was to conserve this feet of floor space in the structure, investment that his attention was first called to the business.

The second of the second of the second of the manner in which it is utilized by the several departments is inter-

Many a family argument has been decided at the school by Douglas answering the disputed questions and frequently it is the wife woh triumphantly says, "There,

The value of the school is in the removing of the mysteries of the motor car. A large board has been arranged with all of the principal working parts so arranged that a cross-section view may be obtained. There is a cut-open cylinder in operation which enables Douglas in plain, understandable words to explain just what occurs inside the combustion chamber in the four pision strokes to each explosion. In ten minutes even the amateur owner may understand how the valves in the cylinder heads open to admit the gas mixture and open to discharge the burned fuel.

There are some valuable lessons in the proper use of the brakes, all illustrated by the mechanism which has been placed on the board. Doug-las' instructions along this line are good for the old-timers as well as the beginners for there are many motorists today improperly using the

During the past five years ten thousand persons have been killed and more than twenty-five thousand injured in automobile railroad crossing accidents in the United States. With the number of new automobiles With the number of new automobiles and new drivers coming into service every day, these crossing accidents are increasing to an alarming extent." This is an excerpt from a letter recently sent to each of the two hundred and fifty thousand Missouri motorists by the St. Louis Automobile Manufacturers' and Dealers' Association. Association.
The Safety Section of this highly

active organization has joined hands with the Railroad Section of the Safety First Council in an immense campaign for educating the public to the grave risk of failing to heed that familiar but often ignored warning. Stop! Look and Listen! To that end they have employed in addition to the aforementioned form letters, ful page advertisements in the news-papers throughout the district in which they are directly interested This movement seems of such sig nificance to the entire country that the Pacemaker gladly devotes this space to its furtherance in the hope that it will actuate individuals and local organizations everywhere to follow the example of the Missour

Perhaps the most impressive single feature of the St. Louis campaign was the reproduction of an open letter from Harry M. Williams (a fast mail train engineer) which first appeared in the Arkansas Gazette on September 5, 1914. In this letter, Williams enumerated in exact detail the near-tragedies in which he personally figured during a single thirty-day period. White space restrictions probabil the reproduction of the complete record, the following incidents all transpiring within five days, serve to illustrate the fact that the aver age motorist is hardly less than eriminally negligent in his attitude of train No. 7. Car filled with chilloward the ever present and always dren. Time, 8:55 a.m.

VEEDOL MOTOR OIL

RESISTS HEAT

OF INTEREST TO CAR OWNERS HOW TO SAVE \$50 TO \$115 A YEAR

The average car owner spends \$268 per year on depreciation, gasoline and repairs. Between \$50 and \$115 of this expense is nanecessary and due to the use of ordinary oils which do not resist heat. Such oils lose a large percentage of their lubricating properties through chemical change and form voluminous acdiment which prevents efficient lubrication. You can prevent this waste of money if you will use the jobricant which prevents rapid sgdimentation.

Saves \$50 to \$115 The contents of the bottles shown illustrate clearly the relative durability of ordinary citand of Vecdol.

The costreords of taxi-caband bus companies show that Vecdol should reduce your gasoline costs \$10 to \$15; reduce depreciation expense \$20 to \$50, and also reduce repairs \$20 to \$50. Add up these items.

ordinary oils are unstable and thereages unserviceable because of non-heat-rasisting chemical structure. Special processes of manufacture developed by this company and the use of Pennsylvania parafine-base crude oil, give Veedol, the new Jubricant, its unusual chemical structure, and its remarkable heat-resisting ability.

 Make this road test Clean out your crank case: fill it with kerosene. Run the motor about thirty seconds under its own power, draw out the kerosene and refill with Vecdol.

Then make a text, running for a month. Note the increased gasoline and oil mileage, the great power, the improvement in mechanical operation and the reduction in maintenance cost.

Get a can of Vecdol, the lubricant that resists heat, and make this road test.

DRIVING IS

By D. V. NICHOLSON.

(California State Auto Association)

Plans are being worked cut by the California State Automobile As-

sociation in preparation for the opening of the 1920 touring season which will be the greatest in the

history of the West.

The association is erecting 7000 road signs in California counties; has opened a legal bureau which will be at the service of all members; is revising its various strip and district maps, and opening new branch offices to further serve its members.

members.
As in the past the association will

be represented before the legisla-ture, and will continue to fight freak

legislation, and bills imposing fur-ther heavy taxes upon motorists. BOND ISSUE EFFECTED.

The record of accomplishments of the Automobile Association in 1919

entitles it to the support of every motorist in the state. One of the most important projects which the Automobile Association accom-plished for the benefit of all coun-

phished for the benefit of all counties was the \$40,008,000 state high-way bond issue voted July 1, last year. This project was initiated by and the campaign carried to successful passage of the issue at the polls by the Automobile Association. In this bond issue \$20,000,000 was provided for the completion of the

provided for the completion of the original highway system as laid out in the first \$18,000,000 bond issue; and for the construction in their en-

tirety of the eight co-operative cross-tic laterals added to the original system in the 1915 bond issue of \$15,000,000. The remaining \$20,-000,000 of the \$40,000,000 issue was

for the construction of thirty-one new highways. There is not a county in all California but what was vitally interested either in the com-

pletion of the unfinished gaps in the original system, the building of one of the cross-tie laterals, or in one of the thirty-one new highways to be

prices for hotel accommodations and fuel are being charged in Eurcese. This means that compar-atively few American motorists will tour Europe this year. Hoad conditions and governmental restrictions and duties will also tend to deter to the European countries With its mild climate, the unequaled variety and scope of its scenic attractions, its advanced motoring facilities which include the greatest mileage of improved highways mileage of improved highways possessed by any state in the union. and traffic regulations there is no question but what California will receive its share of motoring tour-

without regard to the personal benefits which membership in the California State Automobile Association confers upon its members, the good it has accomplished for the state as a whole in improving upon motor conditions entitles it to the support of every motor car owner. No other state in the union can boast such facilities. While much has already been accomplished, there remain many things which the association can do in the interest of motorists in the state, and inasmuch as it is a non-profit making organization, whose finances are derived solely from membership dues, its accomplishments are in direct pro-portion to the support it receives. While the directors are proud of the they are anxious to take up many new lines of improvement that have suggested themselves, and a strenuous effort is being made to increase the membership of the organization this year in order that these things may be undertaken. Every motor car owner is eligible to membership in the organization, whose dues are only \$9.00 per year, and the membership department is carrying on a campaign of education among motorists to show what the association has accomplished and to enlist their support in order that the scope of its activity may be greatly broad-

TRUCK DEMAND INCREASED BY RAIL SHORT AGE

A year ago the cry from the public, as well as dealers, was This cry is now changed to not only "ship us more passenger curs." but "send us more trucks."
"One of the hig reasons for the present increased demand of trucks is that of the acute short-age of freight cars on the country's railroad systems. It is understood that the railways' excentives place the immediate needs at 100,000 cars, and is about all that the car plants of the country can turn out this year.

It is predicted there is a shortage of from 500,000 to 600,000 cars. The result of this is now being restricted in some sections because of the lack of railroad.

LeMans, France, according to Automative Industries, will hold an in-ternational light cur race on August 29, for cars with engines having a piston displacement of less than \$5 cubic inches. The distance is no be 250 miles and the race is open to frivers who are not subjects of the

and general auto electrical repair work. W.L. HUGHSON CO. FORD PARTS ROOM

The Good Roads Dee is biting hard throughout Oregon but they need a lot more money up there before they can hope to have a hard surfaced road between Portland and the Oregon-California line.

This year many hundred miles of road will be built but the good surfaced road will not be completed by any means, according to word sent south by automobile clubs and organizations up there.

These same civil organizations are trying hard to get enough money and men together to make the road complete, but from present indications they will be unable to

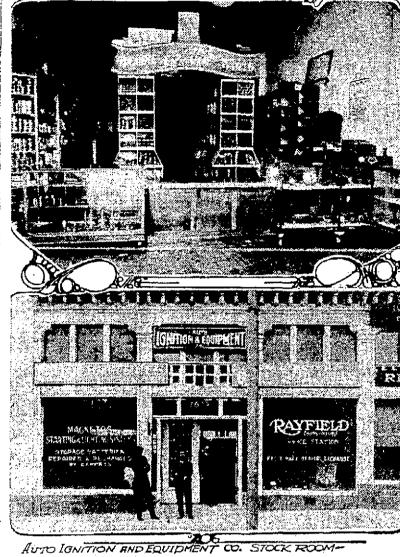

ROAD TO MEXICO "In a year or two we will have a wonderful highway from the Mexican boundary to the Canadian line." says E. W. Milburn, manager of Greer-Robbins company, dis-tributers of talayette cars.

Expectations of a hard-surfaced highway from Pendleton to Seaside, and from Portland to the California line, with an alternate route from fine, with an alternate route from Portland to Junction City, will certainly not be realized in 1920, not-withstanding the hope of good roads enthusiants that such would be the case. Much more money will be needed, and even if the additional funds are provided in the Oliver thereign is will take well into May election, it will take well into 1921 to fill up the gaps that now exist in the hard-surface system.
PORTLAND WANTS HIGHWAY

Roughly, it is about 350 miles by the Pacific highway from Portland to the California line, and of this distance, about 185 miles, or a little more than half, is hard surfaced of under contract. Some of the missing stretches are roads that are very neavily traveled and are of con-siderable economic importance. Apparently the future of the unpaved gaps is dependent on the May election. If the necessary funds Among the important Pacific has been promoted to the manager-

SAVAGE POLICIES

The unlimited resources of the House of Spreckels are back of The Spreckels 'Savage" Tire Company, in its purpose to make for the motoring public reliable and dependable goods of proven merit. Not subject to the whims of stockholders, The Spreckels "Savage" Tire Company is able to adhere to the chosen policy of manufacturing products that are made to a

standard and not to a price. The result in the final analysis is that the consumer pays less per mile for the performance given by these products.

An undertaking of this nature requires constant research for improvement-necessitating large expenditures of money. effort and time. Few companies are able to give these unsparingly. The Spreckels

"Savage" Tire Company is not only able but does it with a result quite apparent in "Savage" Tire products. The methods employed, the selection of raw materials, the stall of the workmen, the constant search for flaws, all reflect the purpose behind the making and are important factors in the manufacture of products bearing the Spreckels "Savage" name.

A thorough study of the requirements of the present in tire construction. That new departure is expressed in are second only to the "Savage" D Type. "Savage grades of raw materials, and according to our own specifications as found necessary to meet the needs of the motorist of today: the "Savage" D Type Tire, because of its wonderful performance on the road, has been judged by many motorists the best fabric tire on the American

toring journal of Great Britain, gives the leading editorial and two of the leading feature articles of one issue to the subject of air-cooling, one be-gins to suspect that there is some-thing in the air.

"We see in the possibilities of aircooling chance for the British manufacturers to get weel ahead of his
foreign rivals," says the editorial as
it proceeds to point out that aircooling means light weight and fuel conomy, two powerful selling

Here are a few of the pertinent remarks in the first article on aircooling:

Public interest is actively beginning to concentrate on the possibiliopened up by the future of aircooled engines.

The idea seems to be broadcast that air-cooling is only suitable for small engines. This is an entirely mistaken view. The writer, who can claim a wide experience with varied types of air-cooled engines of all sizes—from % h. p. to 300 h. p.—is convinced that in a very few years the air-cooled engine will betouring vehicles."

The Franklin engine comes in for a lot of discussion in this article

as does the Temperino, an air-cooled Italian car. "Italy, with its hot plains and its high countains, is not a country in which any inefficiently cooled engine is likely to flourish for long." is one of the significant re-marks about the Temperino.

All of the above discussion took place in the Autocar of January 10. The issue of December 13 carries two communications from practical automotive ongineers; one gives as his opinion that the water-cooled car can never hope to compete in cooling efficiency with the air-cooled car in the hot tropical countries—the sternest kind of a test.

Thorough study of these two is snes of the Autocar discloses the fact that English manufacturers are strenuously endeavoring to get their automotive products on a basis of competition with America and par-ticular attention is being given to theh subject of air-cooling because with air-cooled engines the British car would have a decided advan tors," points out Ben Hammond head of the Franklin Motor Car Co

Matches in

At the upper end of "Auto Row" damp powder into his fireplace to the danger greater than in winter is the Automotive Parts Service see if it was any good was not much closed and the dangerous vapors of more of a fool than the man who gasoline and kerosene have no co. This company was organized more of a fool than the man who eight, months ago and handles a gropes around his garage with line of new motor and gear parts matches. One feels just as familiar for all popular cars—and specializes with the matches as the other did in piston assemblies, of standard and with the powder, but fire and exploversized pistons, piston-rings and sives are a bad combination under wrist pins. A stock of starter any circumstances. You may gears to replace worn fly wheel think you know how to handle both

sears to replace work by wheel think you know how to handle both bands, master and pinion gears, without danger, but as soon as you straight and spiral bevel type, are mix carelessness with them the realiso sold by this house.

The Automotive Company numbers among its customers practicalises are almost sure to be fatal. They are more important than keeping the garage warm in winter by every garage and repair shop in because the latter will merely do handle accounty and does a large the car harm, whereas lack of electrical and attracts or the latter will come you to see mail and express order business from tric lights will cause you to use times as many automobiles as all the out of town. Its salesmen travel matches and that is pretty sure to other countries combined the central and northern part of California—and plans are being formulated to add Nevada, Oregon and Washington to the territory

Accounting for the success of his firm, Patterson states: "Our salesmen are selected from among those who have had previous experience in the business, and have learned the absolute necessity of accuracy. Where some deal in feet and inches we trade in one one-thousandths and less. This fact calls for careful accurate men-and we have them.

Cover Your Fenders if Repairing Engine

In making extensive engine repairs the mudguard or fender will be bent and otherwise marred. This may be prevented by making a cover of some heavy material, oilcloth or imitation leather of some kind, which will cover the fender from its tip to the place where it is fastened to the running board.

lations for the 1920 season in the Yosemite National Park have just been drawn up in Washington and the first copy of them to reach California was received by Foster Curry yesterday. The speed limit remains at thirty miles an hour, but there are several important changes in parking and other regulations. Mo-torists will not be allowed to park within the grounds of any of the camps or hotels.

This will not interfere with the comfort of Camp Curry guests, Foster Curry declares, for the new Camp Curry garage will be completed early in the season. Roads to the valley will be open much earlier than in previous years, de-clares Curry, and a big business during the latter half of April and all of May is anticipated. riollowing are the new rules in

Pursuant to authority conferred by the acts of Congress approved October 1, 1890 (25 Stat., 650) and August 25, 1916 (39 Stat., 535), the following regulations governing the admission of automobiles and motorcycles into the Yosemite National-Park are hereby published and made

public:
1. Entrance — Automobiles and motorcycles may enter and leave the park by any of the entrances, viz. Tioga Pass, Aspen Valley, Crance Flat, Merced Grove, El Portal, Wawana and Mariposa Grove.

2. Automobile—The park is open to automobiles operated for pleasure. but not to those carrying passengers who are paying, either directly or indirectly, for the use of machines (excepting, however, automobiles used by transportation lines operat-ing under government franchises).

Careful driving is demanded of all persons using the roads. The government is in no way responsible for any kind of accident. TRUCK REGULATIONS

Automobile Trucks—Automo bile trucks are admitted to the park under the same conditions as auto mobiles, and are subject to the same regulations as hereinafter noted. Trucks of more than three tons capacity are prohibited on any of the park roads other than the El floor of the Yosemite valley.

4. Motorcycles—Motorcycles are admitted to the park under the same conditions as automobiles and are subject to the same regulations, as far as they are applicable. Automo-biles and horse-drawn vehicles shall have the right-of-way over motor-

5. Intoxication-No person who is under the influence of intoxicating liquor and no person who is addicted to the use of narcotic drugs shall be permitted to operate drive a motor vehicle of any kind on the park roads.

ROADS OPEN EARLY

 Roads, Hours—The Tioga road is open from July 15 to September 30, the Big Oak Flat road from May 15 to November 1, and the Wawona road from May 1 to November 1. Open dates are approximate only as they are dependent upon snow con-"ditions" in the high mountain coun-

try.

The El Portal and Valley roads are open all the year, except occasionally during the winter, when the Valley roads may be blocked with snow for short periods. These cases are rare, however, as the reads are cleared promptly after snowstorms. On the Big Oak Flat road, he-iween Gentry (station No. 2) and floor of valley (station No. 1, 4 miles, and on the Wawona road be-

tween Inspiration Point (station No. 3) and floor of valley (station No. 4), 2½ miles automobiles may go east, down grade, only on odd hours and may go west up grade only on even hours, speed in no case to exceed 12 miles per hour. They shall travel between stations No. 1 and No. 2 on the Big Cak Flat road within the hour, but in not less than 25 minutes, and between stations Nos. 3 and 4 on the Wawona road within the hour, but in not less than

PERMITS AT ENTRANCES
7. Permits—The permit shall be secured at the ranger station where the automobile enters, and will en-title the permitee to go over any or all of the roads of the park. It is good for the roads of the park. It is a spood for the entire season expiring December 31 of the year issued. The permit shall be conveniently ikept so that it can be exhibited to park rangers on demand. Each permit shall be exhibited to the check-ing ranger for verification on exit from the park.

8. Fee-Fees for automobile and

metorcycle permits are \$5 and \$ respectively and are payable in cara

9. Distance Apart: Gears and "Brakes--Automobilen while in motion shall be not less than 50 yards apart, except for purpose of passing, which is permissable only on comparatively level stretches of roads or co significant grades. All nultomobiles, except while shifting gears, shall retain their gears constantly meshed. The driver of each analysis will be controlled. automobile will be required to satisfy the ranger issuing the permit that all parts of the machine, particularly the brakes and tires, are in first-class working order and capable of making the trip, and that there is sufficient gasoline in the tank to reach the next place where it may be obtained. The automobile shall carry at least one extra tire. Mo-torcycles not equipped with brakes

in good working order are not permitted to enter the park.

LIMITS OF SPEED: nos of the Yosemite valley speed not to exceed 30 miles an hour is permitted on straight-away stretches of open road, but speed shall not exceed 15 miles per hour when passing through villages or camps, cross-ing bridges, passing teams or other

antomobiles or pedestrians, or round. ing curves where visibility is ob

On all other roads in the

than 200 yards speed may be in-creased to 20 miles per hour. Automobile trucks of more than 14 tons capacity are limited to a peed of not to exceed 10 miles per four on all park roads. 11. Horns—The horn shall be sounded on approaching curves or stretches of road conceated for any considerable distance, overhanging trees or other obstacles, or before meeting or passing other automobiles motorweles riding or driver. biles, motorcycles, riding or driving animals or pedestrians.

ing other automobiles, motorcycles, riding or driving animals or pedes-

ascending machine to pass with going in its direction of travel. If outs shall be kept closed on floor of valley roads or while approaching or passing riding horses, horsedrawn vehicles, hotels, camps or checking stations.

14. Teams—When teams, saddle horses or pack trains approach, authorises or pack trains approach authorises are unable to pack tra

orses or pack trains approach, au-omobiles shall take to the outer dge of the roadway regardless of he direction in which they may be going, taking care that sufficient room is left on the inside for the passage of the vehicles and animals. Teams have the right of way and automobiles shall be backed or otherwise handled as may be necessary. sary so as to enable teams to pass with safety. In no case shall auto-mobiles pass animals on the road at a speed greater than eight miles per hour.

15. Overtaking Vehicles—Any vehicle traveling slowly upon any of the park roads shall, when overtaken by a faster moving motor vehicle. hicle and upon suitable signal from such overtaking vehicle, give way

Salient in Convenience

Convenience is one of the salient features of

the Stephens.

It is found in the handiness of the tools, located next to the driver's seat in the left front door and protected by lock and key; also in the serviceability of all Stephens features and equipment.

Convenience is further evidenced in wide opening doors, neat exterior door handles and the appointment of all its satisfaction-giving

To own is to appreciate that readiness for service at a moment's desire, which makes Stephens use a greater convenience and its service a greater service.

Arrange today to see and ride in the Stephens

"Service" Accorded New Meaning to sleds, and the winter season was

Promising "the limit" in "free service" to influence a prospective automobile purchaser, was an art developed in the early stages of the business.

The wide gap between what was promised and what was given soon put the public on its guard until promises of free service are no longer given credence by automobile buyers. Gradually the old evil has disap peared until today none of the foremost factories permit their representa tives to make such promises.

The old policy was to sell you \$900 worth of automobile and give yo promise of \$100 worth of free service and charge you \$1000.

The new policy is to sell you \$1000 worth of automobile and charge you -you to assume all cost of operating the car after you accept delivery, barring the replacement of actual defects.

The true meaning of service in business is symbolized by efficiency.

the kind of efficiency which enables one dry goods concern to spread its establishment over a solid city block and reach up toward the skies, while another occupies a small room in a side street. Service in the automobile business is symbolized by efficiency plus ade

Highway commissioners through-

By R. E. FULTON (In the Scientific American,

February 28, 1920.)
In a consideration of the reasons for the growing acceptance of the motor bus as an economic necessity in passenger transportation, it is well first to examine the ultimate effect of increases in population upon traffic facilities. While the necestraffic facilities. While the necessity for immediate action to solve serious congestion problems is now being felt only by the larger cities, the requirements of smaller cities and their future development de-serve just as much consideration to prevent this congestion in years to

It is evident that the traction lines are becoming more and more inadequate to handle the congestion that is increasing every day. Since the amount of traffic they will hold is limited by the tracks on which they run, it will be impossible for them to keep up with the growing needs of transportation unless new tracks are laid. This, however, is prohibited by the increasing congestion of privately owned vehicles on the high-Increasing population on the one hand demands more public transportation facilities. The increasing number of privately owned passenger and commercial vehicles on the other hand demands better highway facilities. Can one factor be satisfied except at the expense of

the other? CAN'T DAY MORE TRACES In the majority of large cities it is out of the question to lay more tracks for surface car lines in thickly populated business and residential sections-there is no room for them. In view of this fact it is only logical used to relieve the congestion, as the are free to operate on any route without tracks. And it is very possible that the time will come when traffic will have increased to such an extent that the streets will seem unable to hold it.

As far as less thickly populated sections are concerned, there is every reason to believe that future development of transportation facilities will favor the motor bus. The laying of tracks for a surface car line represents a huge initial expense for right of way, bridges, grading and rails. If such a line does not prove profitable, it cannot be diverted. The flexibility of the motor bus system, however, does not confine it to any one fixed route.

Efficiency and economy of operation are in favor of the motor bus. These economics are principally due to the fact that the tremendous overhead expense of the surface car lines are eliminated in the operation of motor buses. The bus is its wan power plant and it consumes power white roads will be dotted with swift care. One of the parts of a calr only when in operation. Since it is moving motor cars, new ones and old ones, long ones and short ones, all sorts and conditions of motor cars, for winter is gone and with it the snow and ice and bad driving conditions.

Care. One of the parts of a cair only when in operation. Since it is specific than the surface car, a business and conjugate the conditions. Since it is specific than the surface car, a business and long winter nights mean a heavy drain on its resources and conditions.

eniences that cannot be offered by why we suggest that motorists go to traction lines. Another point, they why we suggest that motorists go to traction lines. Another point, they who, forehanded, has put his car in condition. But the chap who has their batteries examined. If the batteries are found in good condition age, a bus can detour. This fact worked his car all winter and starts terles are found in good condition ade, a bus can detour. This fact out blithely in the spring without car owners will be so advised. Realone works as a benefit in two giving a thought to anything but a charging may be all that is needed ways—it makes a more dependable in some instances and if such is transportation system and tends to up and find that what's poetry to the case that recommendation is relieve the congestion incidental to the other fellow is prose—and mighty uninteresting prose—to him.

NIGHT BATTERY SERVICE 365 DAYS IN THE YEAR

ALL MAKES OF BATTERIES REPAIRED

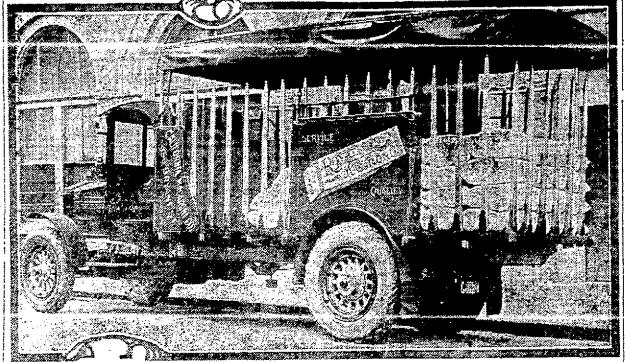

Imperial Garage & Supply Co., Inc. 1433 WEBSTER STREET, Phone Lakeside 2200

The TRIBUNE automotive depart ment wrote to the Lincoln Highway association last Monday and asked them to submilt a summary of activities to be carried on this year. Last night the telegram following reached this office. It details briefly a series of improvements on Lincoln highway, which, when finished again will help to make this ocean to ocean route one which can be traversed in comfort and with reasonable speed. The statement from the Linc

highway follows: Our plans for further promotional work this year are extensive. In addition to the existing contracts with the state of Nevada for improvements which we hope to see completed this year, we plan on entering into further confracts for more improvement in that state and in Utah. Osterman is now in Salt Lake City endeavoring to arrange for immediate completio not the Goodyear cutoff and

connecting sections. We propose also to bring about the permanent marking of the Lincoln highway for 1100 miles from Omaha, Neb., to New York city with enamel steel signs like those west of Omaha. This job will cost about \$20,000. We have in mind also an ambitious plan to construct on the Lincoln way at some central point an ideal section of the Lincoln highway designed to embody all those features originally in the minds of the highway association's founders and to express the highest development of modern American highway construction. Publicity regarding our plans in this A TWO-AND-ONE-HALF-TON PIERCE-ARROW TRUCK FITTED WITH GOODYEAR pneumatic cord truck tires which the California Macaroni Company, of San Francisco uses in an uninterrupted daily service in the bay cities.

April. Funds adequate to take care of a section of ideal highway at least a mile in length have been contributed to the association by the United States Rubber company and the United States Tire com-

We are working with the A. A. A and propose to secure the Glid-den four for the Lincoln way without deviation and to make this great motor classic a demon-stration of the route's practicability and facilities. See booklet entitled A Picture of Progress on the Lincoln Way, sent you March 8 for, additional news. Projected improvements this year in eleven states, will approximate \$12,000,-

New Highway Will Boost Trade California Will Get Lion's Share STEVE CORGIAT

The completion of a highway be-planted almost to the exclusion of tween Phoenix and Los Angeles will other staple crops, meetings are held have a very strong tendency to draw the greater part of the trade of Arizona to California business concerns, declared L. S. Rounsavelle secretary declared L. S. Rounsavelle, secretary and treasurer of the Pacific Rubber Company, coast distributer of Horseshoe tires, who has recently returned from a six weeks' business trip through that section.
"I believe we get the lion's share

of the Arizona business right now, while the remaining portion probally goes to El Paso. Arizona business men like California and during the summer they send their families.

PIERCE-ARROW MOTOR TRUCKS

Take Care of Difficult Transportation Requirements

Pneumatics Prove Superior to Solids on Oakland to Los Angeles Run

"We have found pneumatics practical equipment for trucks of two-ton capacity or greater running at a

speed of 25 miles an hour or faster.

"We also found that the pneumatics afforded much more certain traction. This was proven on Fillmore Hill in San Francisco and in sandy detours. The pneumatic tired truck showed no loss of traction whatever. The solid tires had difficulty in getting traction on the cobble stones and continued to spin the wheels to the extent that the tires became badly scarred.

With pneumatics we found it possible to run up the hill, stop, back down a ways, and start up again

without spinning the wheels in the least.

"On a detour this truck with a four-ton load was able to progress faster than a touring car, whereas the BUTLER-VEITCH." solid tires had considerable difficulty getting through at all.

The truck shown above made two trips from Oakland to Los Angeles and return; one trip on pneumatics and one on solids, with the following results:

First: They found that the pneumatics were most practical for a truck running at a fast speed.

Second: The pneumatics negotiated sandy detours with ease, while the solid tires had great difficulty in getting through at all.

In fact, the traction afforded by the Goodyear Cords permitted the truck to progress through such detours even faster than the touring cars.

Then, the pneumatics again proved superior on Fillmore Hill in San Francisco, where the solid tires could not obtain traction and caused the wheels to spin until the tires were badly scarred.

The Goodyear Cords, permitted this truck to even stop and start in the middle of the hill without spinning the wheels in the least.

And, in addition to these advantages the pneumatics protected the truck and load as could not be expected by the solid tires.

With all these features in mind do you realize what a practical thing pneumatics would be on your truck? The Service Stations below can give you more information.

Help Writers

A curious method of preparing the screen version of a book or story is that introduced by J. B. Chapman and Wycliffe Hill in writing the continuity of an Upton Sinclair novel for Benjamin B. Hampon the story with Hampton and W. II. Clifford, head of the scenario staff, after each of the four has read the book carefully.

Then the two authors make a synopsis or skeleton story of the book in episodic form, each wording alone. Next they meet and compare ideas, adding and eliminating until the framework of the story is complete. The next step is to secure little cardboard miniature 'sets." made by studio experts to represent the interior and exterior scenes of the story as visualized by the screen authors. Miniature human figures with loaded bases on the order of chess men, and of a size proportionate to the set, are next secured. These are to be moved around on the "sets" to aid the authors in visualizing, down to the smallest detail, the action of the characters. With this equipment Messrs. Chapman and Hill retire in-70 a secluded cabin in the mountains or at the beach and work out their story episode by episode.

McAdoo Oul of Film Combination

The Big Four, the Pickford-Chap-lin-Griffith-Fairbanks combination, is going into its second year no bigger than it was a year ago. The reverse, perhaps, is true, William G. McAdoo is no longer with the stellar quartet, it is said, and Oscar Price, who was getting \$18,000 a Year as president, is also out, or nearly so. McAdoo's salary was

Lack of product was the most serious obstacle encountered by the Big Four. Fairbanks provided two pic-tures, Griffith one and Mary Pickford the fourth. "His Majesty, the American," brought in lots of money for the United Artists, but little for the exhibitor, so the trade gossips say, and this made it more difficult to get big money for "When the Clouds Roll Ty." Griffith's "Broken Blossoms," bailed in the big cities as the picture of the year, was bought for \$225,000 from Arteraft.

Then came "Pellyanna," and the

showhouses were soaked all the traf-fic would bear. United will gross a million dellars or better from it, but in doing so they have made a of anti-star propaganda which is bound to react on their future

Terms Must Be Understood by Writer in Order to Comprehend Limitations and Possibilities of Film Production

By John Emerson and Anita Loos

(Deans of the Photoplay Writing Profession, who are now collaborating on the Constance Talmadge Pictures)

CHAPTER IV "The Photoplay Writer's Dictionary"

The successful photodramatist must understand the language of his craft. Many technical terms relating to the motion picture of necessity have been coined since Noah Webster's time, and these terms are Special Pictures Corporation, re- Webster's time, and these terms are cently organized by Los Angeles of the greatest importance in guiding the director, the camera man and others on the producing staff in

Elizabeth Hall Dietz, Goldwyn Mastery of small details of this scenarist, was a student delegate on sort is therefore necessary. For this reason, before going any further, we Kathlyn Williams has been en-gaged by Benjamin R. Hampton picture terms, used in their technical for his all-star photoplays of fa-sense, which will appear in subsesense, which will appear in subsequent articles.

Camera: The motion picture camera with which the photoplay is made. There is of course a secondary camera which takes only still pictures for reproduction in advertisements or as records of scenes for office files. In 1872 Mr. Muybridge obtained a succession of snapshot pictures which formed the first suc-cessful motion picture; in 1893 animated photography was commercialized; and in 1895 Thomas A. Edison's kinetoscope was exhibited at the Chicago World's Fair in the form of a wooden cabinet which permitted but one spectator at a time. One year later the pictures were actually thrown on the screen.

WHAT TO AVOID

Amateurs should bear constantly in mind at this point that the very first pitfall they must avoid in scenario-writing is "the camera-

Cameraman: The expert operator of a motion picture camera. Cast: Actors taking important parts in a photoplay. A written cast of characters with descriptions of each is a part of every scenario. For example, the first thing to follow Constance Talmadge's new picture, "A Virtuous Vamp," was an insert reading, "CAST—Constance Tal-

Once upon a time there were two tions. little girls named Mary and June White. One afternoon they went in wading down at the creek.

CONTEST is on for both boys and girls. The girls have been wanting a chance to prove that they could write as dandy mystery and adventure stories as the boys, so here's their chance. Any kind of an adventure will do—the more thrilling the better. Do not make ghost stories if you can help it, for we have already had two ghost story contests.

No story must be more than 400 words long and all the words must be counted and the number given at the top of the page—as real writers do. Longer stories will not be accepted. name and age and address and the put the policeman in to keep them in words "ADVENTURE STORY CON- order. All stories must bear your real

All stories must be in by April 4 and the winners will be announced two weeks after that. Three prizes will be given for the those fine thrillers. best three-girl stories, and three prizes for the best girl stories. There is no age limit. Age will be considered in awarding prizes.

after that, although he was still far from meek, he sometimes looked before he bit

There are still whole giggly bunches of "make things ideas" waiting to be printed, so you must be patient if yours have not popped out yet. Very few of the letters have THREE-NEW ideas, but many of them have at least one good idea, and in cases like that I am printing the one. Only those with three new ideas are prize winners, but they are ALL splendid and I'm very proud of my chickies.

Before we talk about the ideas I want to say a word about PAPER DOLLS. Many, many kids send in paper dolls to be printed, but they can seldom be used for lack of space. But thank you, dears, just the same. Today we have a very sprightly little lady from ELEANOR STUART and EDITH VANDERBILT. I think those are made up names, but they're pretty as violets, aren't they, kid-

And here's a SPECIAL REQUEST FOR PAPER DOLLS. A dear chum, who did not give her name or address, said that she would send paper dolls to some little sick or lonely child if we would give the address. So another chum, who does not give name or address either, but who I am sure has a heart of gold, has told us of someone who would just LOVE paper dolls. The name is

VURNIERUE BUSSE 2814 Adeline, st., Oakland, and the mystery chum thinks that paper dolls would make her VERY happy for special reasons. So who will send them to her with Aunt Elsie's love tucked in, 100? And Mystery Golden Heart.

RUTH NORDEN 1088 Versailles ave., Alameda. Here are three jollies from Ruth: HOME MADE TAMOURINE

Take a strip of cardboard about two inchies wide and twenty-two inches long into a circle, sewing the ends together firmly. Paste a cover of stout paper over one side, cutting the LaFayette school. I love to people began to come out of the list. Saw at least a dozen tiny of SLADYS BETTS.

Aunt Elsie, I love best of all. MARYLEE G. NAHL. DOROTHY HURLEY

2717 Webster St., Oakland. Once upon a time there was a lit-tle girl named Betty. One day she went for a walk in the woods. Sundenly she heard a voice cry:

"Let me out!" "Where are you?" said Betty.
"In the tree," said the voice.
Betty looked at the tree closely Then they became

Who says that girls can't write as fine thrillers as boys? Listen to this one. She's realy an old chum, she does not want me to tell her name:
"BUTTERFLY,"

#715 Magee ave., Oakland. One day Jim and Harry went for a hike in the mountains. As they were walking along they suddenly heard harsh voices. As they drew nearer they saw the entrance to a cave and listening they could hear a gang of robbers counting over their money. Just then the robbers saw the boys and rushed out and tied them up. After this they took the money and went away.

After a while Jim worked himself loose and then freed Harry. They then explored the cave. They found two guns. It was growing dark and just then they heard the robbers' voices. The boys both hid themselves and as the robbers came in they jumped out at them, aimed with their guns and told them to throw up their hands. They then tied them up and took all the money and set out for home. When they reached home they sent the sheriff after the robbers. They gave most of the money to the poor.

"Are you going to be very busy to-morrow daughter?"

My father looked up from his morning grape fruit at me a bit wistfully. With a remorseful twinge I realized that in the whirl of my many duties at school and at home I had given very little attention to my father large Dischool and the many father large Dischool and the my father large Dischool and the process of the pr

my father since Dicky's return to civilian life, or, indeed, before.

It was the Friday morning following Dicky's appearance at the Bayview high school, and he had been so preoccupied with his work

been so preoccupied with his work in the city that I had had very little opportunity for conversation with him. I knew that orders were coming in to him rapidly, and that his illustrations for the serial Alfred Durkee had given him were not yet finished, but I had hoped, secretly, that the part does the secretly.

that the next day, Saturday, on which I was free from school duties.

might bring me one of the old, de-lightful, dittle trips with my hus-

band which used to be red letter days in my life.

It was not alone the desire for a day with Dicky that actuated my wish. I would have welcomed, almost anything which would take my

thoughts away from the haunting fear that had obsessed me ever since our evening at my principal's home. I had no fresh reason for uneasiness, for there was nothing in Mr. Stockbridge's manner to indi-cate that he even remembered any

unusual occurence, and Alice Hol-combe and I had, with a wordless understanding, carefully avoided the subject of Milly Stockbridge's mania.

But I couldn't help my own fore-bodings, though I heid them in stern leash, fearful lest Dicky should ob-serve my alarm. Fortunately, the

whole ugly undercurrent of the even-ing had escaped his notice, and I

knew that he had carried away with him only favorable impressions of

the affair, not the least pleasing of which. I suspected, was the memory

of Bess Dean in her flame-colored

I couldn't resist sending a furtive, appealing look in Dicky's direction, even as I answered my father's question.

By Juanita Hamel

Baby-Blue-Eyes (Nemophila)

Baby Blue Eves (Nemophila insignis Doug.) is the daintiest and fairest of wildings. It is happily named: for its ethereal leveliness makes as straight an appeal to our hearts and reminds of naught so much as that blue which is like the blue of a baby's eye. "Harbinger of Spring" was the poetical title bestowed upon it by David Douglas, the famous Scotch botanist, nearly a century ago, when he came to California to study the wild flowers for the Royal Horticultural Gardens of London.

spring in Camfordia, and he would antiffixing people, but respond woth-nave discovered, most certainly, that derivally to congenial influences. In-California springs are not as other signis means plainly marked and springs, and cannot be reckoned by their delicate blue veins most cer-the calendar; and that his little pet way now honors his name. Nemophila insignis Doug.), had a way of in nectablossoming whenever and wherever it chose; or rather, it did so in early lays, when our wild flowers were as free as the balmy air they breathed, showy in appearance, none are so Now in common with many of her universally beloved as the Blue-Eyed beautiful sister flowers who are be-variety. The blossoms vary in size coming candidates for extermination, and color from about half an inch Baby-Blue-Eyes seeks hiding places to an inch and a half across. Uncle Wiggily's Adventures

THE ANIMAL BOYS REALLY DIDN'T MEAN TO HURT UNCLE WIGGILY'S TALL HAT. OH, MY, NO! BUT JUST THINK WHAT MIGHT HAVE HAPPENED. OH, DEAR!

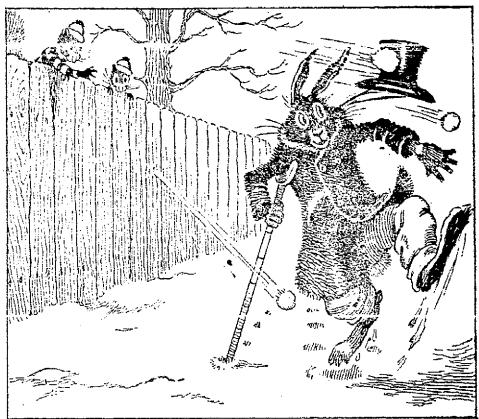

Text by HOWARD R. GARIS
Author of the Pamous UNCLE WIGGILY BEDTIME STORIES
PICTURED by LANG CAMPBELL

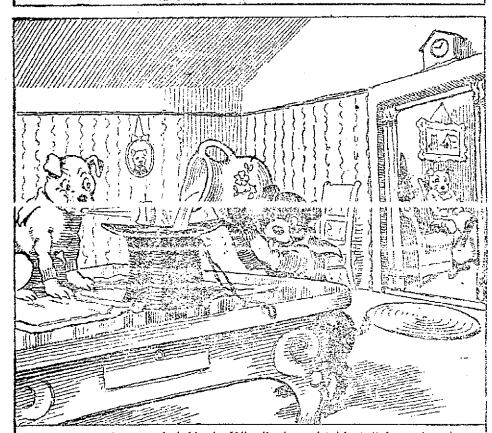

"My, how nice you look, Uncle Wiggily!" said Nurse Jane Fuzzy Wuzzy, as the bunny gentleman started out from the hollow stump bungalow one day. "I'm going to call on Mrs. Bow Wow, the dog lady, and on Mrs. Kinkytail, the monkey lady," spoke Uncle Wiggily. "I want to look nice." Nurse Jane said he certainly did. "But you must be careful of your tall hat," she added. "Why?" asked Uncle Wiggily. "Because boys and snowballs are bad for tall hats." Uncle Wiggily said he guessed he'd be all right.

Johnnie and Billie Bushytail, the squirrel boys, went out to play in the snow soon after Uncle Wiggily started visiting. "Let's make a lot of snowbalis," said Johnnie. "All right," answered Billie, and so they rolled the soft, white snow in their paws until they had quite a pile of balls near the high board fence. "What'll we throw them at?" chattered Johnnie. Just then Billie looked toward the fence, and saw a tall, shiny hat moving along. "Let's throw snowballs at the hat!" whispered Billie. "Oh, yes, let's!" said Johnnie.

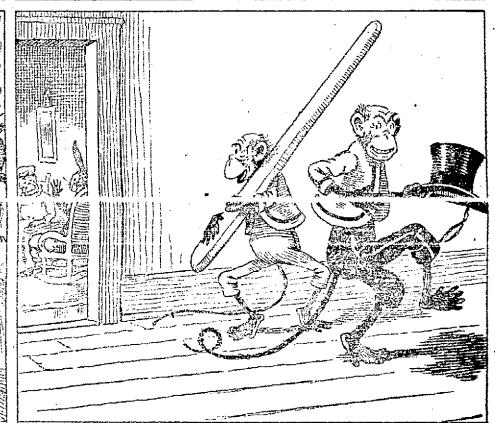

Johnnie and Billie Bushytail used to play baseball, so they were pretty good shots. "Bif! Bang!" went the tail shiny hat on the other side of the fence. Up in the air it sailed, but it did not go very far before it began to spring back. "That's a funny hat!" cried Billie, as he climbed on the fence. "Very funny!" chattered Johnnie. Then they saw Uncle Wiggily. "Hello, squirrel boys!" greeted the bunny rabbit. "It's a good thing I tied a rubber band to my tall hat, isn't it? It always comes back when knocked off!"

"Aren't you glad Uncle Wiggily brought his tall hat when he came to call on Mother?" barked Jackie to Peelie, when the hunny rabbit gentleman had made his visit, and was talking to the doggie lady in the parior. "I'm terrible glad," said Peetie, as he blew on the sail of his little toy boat, while Jackie poured more water, from the pitcher, into Uncle Wiggily's hat. "I wonder what he has the rubber band on his hat for?" Jackie asked. "I guess maybe that hand plays music for Uncle Wiggily!" laughed Peetie.

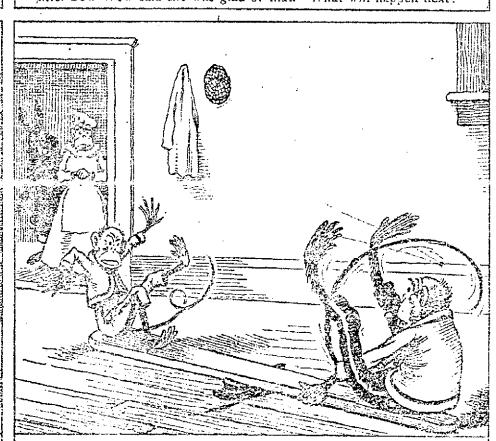

"Why, Jackie and Peetie!" barked Mrs. Bow Wow, as she and the bunny gentleman came out: "Putting water in Uncle Wiggily's hat! You have spoiled it! Oh, I'm ashained of you!" Uncle Wiggily laughed as he poured the water from his tall hat back into the pitcher. "Oh, no, it isn't spoiled. Water does it good. Johnnie and Billie threw snowballs at it a while ago, not knowing it was my hat. But the rubber band brought it back to me. No harm is done!" Mrs. Bow Wow said she was glad of that. What will happen next?

"I'm glad to see you, Uncle Wiggily," said Mrs. Kinkytail, the monkey lady, as the bunny came to make a little call. "Are you out visiting today?" "I just came from Mrs. Bow Wow's house," he added. "A tunny thing happened there to my fall hat. I'll tell you about it." In the next room Jacko and Jumpo Kinkytail, the two monkey boys, had taken Uncle Wiggily's bat. Jumpo was carrying it and Jacko had his mother's ironing hoard. Jacko wanted to listen to what happened at the dog house, but Jumpo said they hadn't time.

"Now come on, Jacko!" called Jumpo. "We'll have a lot of fun. I'll put Uncle Wiggily's tall hat down in the middle of the floor, and you rest the ironing board over it." "Why, it's a regular seesaw, isn't it?" chattered Jacko. "Yes! But hush! Not so loud!" spoke Jumpo in a whisper. "We don't want Uncle Wiggily to come out and stop us from playing with his hat. Now you get on one end of the ironing-board, and I'll sii on the other. Then we'll teetertauter up and down with the hat in the middle. Oh, boy!"

When everything was ready they took their places on the ironing board. The board rested across the tall hat. "Sit down!" called
Jacko, and down they sat, thinking to have a nice see-saw teetertauter ride. But you can see what happened. "Crincho-crusho!"
went Uncle Wiggily's hat, shutting up just like an necordeon, and
down went the monkey boys. "Ouch!" chattered Jacko. "Wouch!"
sputtered Jumpo. Uncle Wiggily and Mrs. Kinkytail came running
out. And they saw just what you see. Isn't it wonderful?

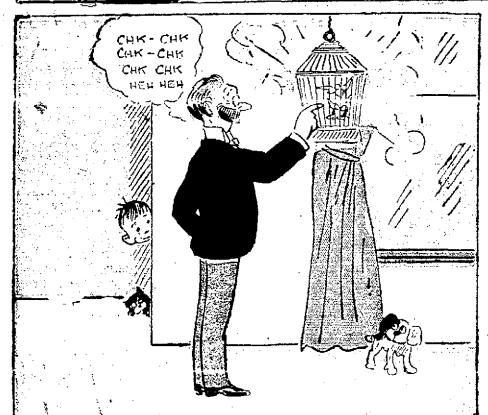

Oh, you had hoys!" cried Mrs. Kinkytail. "Taking Uncle Wiggily's tall hat to use for a see-saw. Didn't you know you'd crush it flat?". "No harm done at all!" laughed Uncle Wiggily as he lifted the ironing hoard off, and leaned on it careless like and negligee. "My hat isn't harmed in the least. Snowballs don't hurt it. Water poured in doesn't matter for a moment and when it is crushed flat, like an accordeon, it springs out again. It is made of stretchy rubber, you see, boys!" "Good night!" said Jacko; and Jumpo said the same.

And if the egg doesn't fall down in the salt cellar, when it is trying to dance with the sugar spoor in the gravy boat, the next pictures and story will be about UNCLE WIGGILY'S APRIL FOGL,

BERLIN BESIEGED; BATTLE IS IMMINENT

LEADS: FIGHT

Opposition to Military Man in G. O. P. Camp Active, But Apparently Not United on Any Particular Candidate

Shadow of Herbert Hoover As Political Figure Lengthens Daily and Worries Some of Old-time Party Prophets

(Special to The OARLAND TRIBUNE.)
operighted, 1920, by the Washington Star.)
WASHINGTON, March 20.—General Wood's victory in the Minnesota Republican primaries has served to give the G. O. P. Presidential contest

an added sharpness and to endow it with increased bitterness. There is every indication that from now on it is to be a war to the knife among leading Republican aspiranants, with quarter neither asked for nor given. Despatches to the Star from its political correspondents show everywhere a tightening of the anti-Wood lines and a disposition among the followers of other candito combine in an effort to prevent the Wood management from cobbling up other delegations.

Apparently there is a larger body Republican party workers opposed to the nomination of Wood than is committed to the fortunes of any of his rivals, and they are showing anxicty to throw their strength to any and resume his duties immediately.

man who gives promise in a parSenator Newberry issued the folave off Wood instructions. In Indiana, for example, Governor Lowden has been looked upon as Wood's strongest competitor for the favor of Hoosier Republicans, but the showing made by the Illinois gover-nor in Minnesota has the anti-Wood worried and they are giving

WEEK OF DOLDRUMS AMONG DEMOCRATS

On the Democratic side of the presidential contest the week has been rather a dull one. The McAdoo movement, despite refusal of the former treasurer to come into the race openly, appears to be making headway and the campaign for delegates pledged or committed to Attor-ney-General Palmer goes on throughout the country. Otherwise, there appears to be little activity.

Palmer and anti-Palmer crats in Pennsylvania are lining up for a fight to the finish, and there appears to be a disposition among Democrats elsewhere to sit back and await the outcome of the issue. If Palmer fails to control the delegation from his own State, they are likely to be shy casting their fortunes in with his. HOOVER ENIGMA OF

POLITICAL SITUATION Herbert Hoover continues to be about the most discussed man now in the public eye, in a political way. In the past he has been regarded more as a Democratic than Republican presidential possibility, but this week's mention of his name has been most frequently heard in connection with the Republican nomination.

This is due, of course, to his inter-

Milne Says Allies Will Not Remain in Constantinople

(By United Press)

 N. Y., 8166; Hudson Falls, N. Y.,

The increases since 1910 fellow: St. Paul, 19,851, or 9.2 per cent; Rock Island, Ill., 10,842, or 44.6 per cent; Albany, 13,091, or 13.1 per Renssalaer, 112, or 1 per Watervliet, 999, or 6.6 per cent; Mechanicsvills, 1532, or 23.1 per cent; Hudson Falls, 575, or 11

Washington to Ratify Suffrage Amendment TACOMA, March 20.—Ratification of the federal suffrage amend-

ment by the Washington legislat-ture, which will convexe in extraordinary session at Olympia Monday, is attracting little attention in this state.

Washington, ten years ago, adopt ed woman suffrage by an overwhelming majority, every county in-dorsing it. And it is practically cer tain tonight that the ratification of the federal amendment by Washington Monday will be by the unanimous vote of its legislature.

ladded to the sufferings from hunger

There is often that extreme tired feeling, loss of appetite, tendency to anemia, nerve exhaustion, inactive bowels, constipation and great danger of still further prostration and serious iliness.

Hood's Sarsaparilla first works upon the blood. It is remarkable how promptly its purifying vitalizing effects are noticed. It "makes food taste good," promotes assimilation so as to help secure the greatest nourishment possible, promotes digestion. Nerve strength and cheery health inevitably follow, further danger is avoided and the glad-to-bealive feeling again prevails. To read this is well, to realize it yourself is better.

Get Hood's Sarsaparilla today, and for a cathartic, nothing better than Hood's Pills, in small doses a gentle laxative: larger, an active cathartic.—Advertisement.

His Little Boy A Mass of Sores So writes W. C. Warren of Milibero, Virginia,

"We tried two good dectors, one a fun-clalist on skin disease and they did him no good. We used 7 bottles of D. D. D. and his face, which was simply a mass of sores, is now smooth as paper." or sores, is now smooth as paper.

Thousands of grateful users of D. D. D. have written to tell of the wonderful relief it gave them—even one application completely stepping allitching and burning. Why not try D. D. D. at once and be convinced? Your money back if the first buttle does not bring relief. Sec, 600 and \$1.00. Try D. D. D. Sand, tox.

Actress' Marriage View Scored; Women Hit Peggy Marsh's Idea

Sacredness of Wedlock is Stressed by Teachers and Suffragists.

CHICAGO, March 20.-Leading suffragists of the country do not take kindly to the belief of Miss Peggy Field of Chicago, that "ababy is the completing the academic parade, best marriage certificate," and that "soon there will be no need of a marriage ceremony."

Miss Marsh expressed these opin-Following is the official program: Field \$5,000,000 trust fund for their field \$5,000,000 trust fund for the pear of the three-year-old son, which the court decided against her. She also said Paul more to realize that true affection of music, man and a woman" and that "when Woman's Civic Center will meet toshould be the only bond between a Greek theater. "I am sure that I cannot share 7 p. m.—Dinner tendered to Miss Marsh's views," was the firm President Barrows and the delegates opinion of Miss Katharine Ludding-from foreign countries by the San reflect the ideas of the does not Francisco Chamber of the ideas of the id

"Peggy Marsh cannot be regarded as a representative of American omanhood in her views on marriage," said Miss Rose Young of New

While Miss Marsh found no cham-pion among women leaders, a mere man came to her defense. He was Harry Stephen Keeler, a Chicago auhor, who was married recently. "The long drawn out intricacy of he marriage ceremony indicates it will soon be a thing of the past," he said. "It is largely hocus-pocus, signifying little or nothing. I expect to see the day when marriage will consist merely of an exchange of rings.

"Miss Marsh is right. She was as truly Field's wife as though she had been united to him by process of law. Such a marriage should be recognized as a true and sacred union. "But we cannot always successfully oppose the opinion of the majority

of people, even when we know the majority is wrong. So maybe it would have been better had a minister mumbled some words to her suit to obtain two-fifths of the Henry to live together."

COMPLETE HOUSE FURNISHING DEPARTMENT STORE

RALPH H. TURNER. Press Staff Correspondent. CITY OF MEXICO, March 20.— This is the question Mexico is asking

"Does Venustiano Carranza intend 10 continue in the presidential chair? Decidedly not, Carranza replies. According to Carranza's own-statement he will not remain in orfice 'a single day after the first of December," the date when his termi expires. This statement, which appeared originally in El Democrata, a peared originally in El Democrata, a government organ, was accompanied by the editor's declaration that a contemporary had published "an insidious notice to the effect that a certain political group was conferring privately to consider keeping the president in power without violation the corretiution."

olating the constitution."
In refuting this suggestion, Car ranza was quoted as saying that inasmuch as re-election was prohibited, he would not violate the spirit of the constitution by remaining in office, even though this could be done in a constitutional way. He declared further, according to El Democrata, that in case internal events prevented the holding of the election, congress would designate the new executive.

DISCUSSION RIFE.

But the President's statement, while exercising a certain quieting effect upon the campaign situation, has not entirely stopped the discussion in political circles that Carranza may succeed himself. Basis of this discussion generally is based on

two points:

1. The President may declare 1. The President may declare that the pacification of the nation is not yet so complete as to permit the holding of the elections, thereby extending his term of offlice.

2. Controversy over the election may lead Congress to declare it illegal, following this action by naming a man to enter upon the new term.

In the event of the second development, the newspaper Excelsion (independent) has pointed out, Carranza undoubtedly would be designated as the provisional president.

The Excelsion asserts that the new constitution provides:

"In case of the absolute lack of a President during the first two years of a presidential term. Congress shall immediately elect a President, the same Congress to convoke new presidential elections, arranging for these to take place as years to possible to the next elections. near as possible to the next elections for congressmen and senators.

MANY WAYS OPEN.

This means, according to the Excelsior, that should Congress declare the elections illegal, or should the president-elect resign for the sake of peace, Carranza would be named to hold office for two years longer, or until 1922, when the next con-gressional elections are scheduled. Some people, in fact, declare that it would be best for Mexico if Carranza would remain in power; that

that his continuance in office would permit Mexico to continue its steady improvement, uninterrupted by a shift in the reins of govern-

But herein lies a factor which led Carranza's friends to insist that he will retire when his term ends. Carfanza, they point out, is eager to prove before the world that Mexico under his administration has achieved democratic stability. There is no better way of demonstrating this they way than her than the page. this, they say, than by the Presi-nent's delivering his office to a man chosen by the people to succeed him. Very few Mexican rulers, it is declared, have peacefully stepped aside in favor of a successor—any successor. So here is a chance for Carranza to "make good"-for him-belf and for Mexico. It is this opportunity, say the President's clos-est supporters, which explains his eagerness to negotiate a change in power by peaceful, regular methods.

LOS ANGELES, March 20 .-Coach Christie's imported einder disgers from the University of California did everything that was expected of them out at Bovard expected of them out at 50 and field this afternoon when they captured their dual track meet with the University of Southern California by a count of 75 ½ to 45 ½.

The northerners won because they had an abundant supply of second and third place point winpers. First places in the arrest performances were pretty evenly divided, the Bears grabbing eight and the Trojans seven. California men. however, steamed into second place in ten different races, while only four U. S. C. athletes finished on the heels of the tape smashers.

George Schiller, U. S. C.'s speedy little quarter-miler, set a new record for Boyard field in that record for powers field in that event when he skipped over the distance in 494-5 seconds. "Specian in second place until the half-way mark was reached when he opened up and passed liendriason of California. Schiller had no trouble maintaining his lead to the finish. G. Wilson, U. S. C. capiain.

nnish. G. wison. C. S. C. capisin, took second honors.

Charley Paddock was tuned up perfectly today and tripped through the 220-yard—dash in 22 seconds. equaling the Boyard field record is this event. Paddock breezed through the century in 10 seconds, the fastest time recorded in California this season. He was not pressed in

either race. Reid Crippen, former U. S. C. man, now sporting the Blue and Gold of California, took the lead at the start of the two-mile affair. Marvin, a U.S. C. prep student, followed along about two steps behind Crippen for one and three-quarter miles. Hitting the final lap, Marvin started to sprint. He passed the California star like a sprinter and

increased his lead at every stride, finishing a good forty yards to the good. His time was 10 minutes 11 "Babe" Leadingham, a University High school man, tied with Gra-ham and Captain Peterson of Califormia at 12 feet in the pole vault, but his points were not counted.
"Superman" Merchant won the
broad jump but his mark of 21 feet

inches was two feet short of the one he made at Berkeley last Wednesday. The Bears snatched the relay race and Captain Wilson of U. S. C. won the half mile race from Waltz in the fam time of 2 minutes 2 seconds.

The various campfire groups about ; the bay are showing excellent records in carrying out the ideals and aws of the campfire.

The Koos Kooskia group of De remery playground enjoyed a picnic at Land's End last Saturday. An opportunity was given the girls to carn honors in hiking, wood-gathering, fire-building and nature work. Mussels baked in an open tire of driftwood was the principal part of the campfire dinner.

This same group celebrated the

first anniversary of their organiza-tion with a dinner served in the De Fremery slubhouse on Wednesday evening. About sixty, people were present, including the mothers and fathers of the members and a number of invited guests who have shown an interest in the campfire organization. The room was decorated in greens and Chinese lanterns and at one side was a display of the craft work of the Koos Kooskia girls. Miss Edna Blakeley was toastmistress. Toasts were given by the members to Miss Ruth Findlay, president of the Bay City Campfire; to Mrs. E. J. Rhodes, guardian of the group; to officers of the past year, to new officers, to Mrs. Evelyn Webster, campfire story teller, to our fathers

ind to the campure girls. THEATER PARTY IS GIVEN The Took-a-Paw Camplife group of Bushrod playground gave a theater party last Saturday afternoon at the Fulton Theater. The eighth anniversary of the Na-

tional Campure movement takes place this month. The Lewa Campfire of Hayward has made progress in the past year in carrying out the law of the fire, which is: Seek beauty. Give service.

Pursue knowledge.

By Day

Hold on to health... Be happy.

Seek beauty—Several hikes have been enjoyed through the surround seeking the beauty in nature through the birds, trees, flowers and ferns.

CLOTHES ARE COLLECTED Give Service-Several meetings were spent collecting and repairing clothes which are being placed wher needed by Miss Schafer, the health nurse. The Associated Charities were assisted at Christmas by the making and filling of one hundred stockings for the Christmas baskets. Two banners have been won in contest with the Boy Scouts, one for selling the most hearts on Heart day, another for selling Red Cross stamps to the amount of \$44.65.

Pursue Knowledge—Much study is being given to the Campfire Manual and Indian Symbolism, some atten-

they delighted in swimming, rowing, with Onwa Campfire girls of San mountain climbing, horseback riding Leandro as guests and three others and out-door cooking. The girls have spent a Saturday at Lake Mer-

That Extra Bed

How often one more bed seems a necessity, especially in the small bungalow or flat!

The bed davenport happily provides the extra bed without the need of another bedroom. When you buy one you really buy a good-looking davenport for the living room, and with it you have a bed whenever you need one. Your mattress and bedding may be folded up inside.

The Nufold bed davenport illustrated is of fumed oak, upholstered in a good quality of imitation leather. It is priced at

Terms \$7.50 down-\$7.50 monthly

There are many other styles of these handy bed davenports now on display here. All are sold on terms.

Floss Mattresses

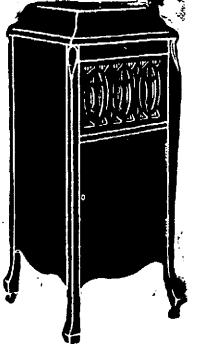

When you buy a floss mattress from Breuner's you have a mattress guaranteed to be sanitary and high-grade in every particular. These mattresses are made in our sunlit shops, of floss shipped to us direct from the Java growers. From the time the floss is taken out of the bales no human hands

Lines Tighten In G. O. P. Race For Nomination

(Continued From Page 1')

ew urging ratification of the peace reaty as amended by the Senate. As the effect of the interview on loover's chances for he presidential nominations, H. O Messenger, the Star's political specialist, has this to

Politicians at the capital are generally of the opinion that the Herbert Hoover appeal for the ratifica tion of the treaty, with reservations to the League of Nations covenant, if it does not mark his formal enconference Jav B Nash, municipal porters of the League of Nations unand changed in form as presented by the President. In this declaration Mr can leaders outside of Congre garding the possibility of using the tion of the national party. On the extensive Durant grounds for the question of the League of Nations

Herbert Hoover now appears to have switched to the majority sentimen of the Republican party in and out of Congress. His position is made clear in his own words without equivocation. To be sure, in taking this stand he may be properly class ed as having parted company with President Wilson, if, indeed, in the light of his letter to the President in Paris, he could have ever been con sidered as running with the presidential mind on this subject,
APPARENT PARTING

FROM WILSON WAYS "But the point is that Mr. Hoover has been described as being favored by President Wilson for the Demo-cratic nomination. As politicians see it, if President Wilson concludes to bring his party to the polls next November on the straight-out issue of the original League of Nations covenant as brought back by him from Paris and Versailles, Mr. Hoover cannot be the Democratic standard bearer in view of his stand now an-nounced. In no plainer language could he declare, 'Your candidate I cannot be.' Politicians think that Mr Hoover has burned all the Demo-cratic bridges behind him if they are constructed on the strict Wilson model of 'no compromise on the league.

Hoover feels satisfied that the Dem ocratic party, under the leadership of the President, is intent upon mak ng unconditioned acceptance of the treaty of Versailles a campaign issue and if he has thus formally repudi association with such a and aligned himself with the Repubditioned acceptance of the covenant of the league.

The TRIBUNE maintains an office at 1015 McDonald avenue; pertaining to the editorial or business departments of the paper will be received there.

RICHMOND, March 20.-The ber efits of a college education were told in stamps to help pay postage and the students of the Eichmond high nacking for a free 50c trial box of school by several members of the Kellogg's Brown Tablets, to Frank University of California at the high J. Kellogg Co. 2463 Hoffmaster Block, school by several members of the Battle Creek, Mich. University of California at the high school gymnasium last night. basketball game between the U. of C. "Y" and the Hi "Y" teams, and a musical program followed. The college men won, 22 to 20, after a hot struggle.

The strength of the local high boys was a surprise to the college men, who had several star players of the university on their team, including Ronald Ure, center of the 145nound team, and Arthur Eggleston, star forward of the 'varsity team Speakers included: Edward de Freitas, senior in law, and Harry Maxwell. Harry Kingham, a former member of the New York American base ball team, gave an interesting sidelight on the big league players.

Merrill La Fountain and Jennings furnished/the music, the former at the plane, while the latter

members of the Piedmont board of education to prevent their meetings in favor of the \$250,000 high school bond issue from being "stolen" by two Piedmont city councilmen, who they say, have developed a habit of slipping into the meetings, listening to the talk, and then arising to fight school bonds in favor of a sewer.
The first attempt, at the Beach

school Friday night, caused a min-lature war. Councilmen Grimwood and Wolfe arose at length, asserted that they criticised the methods of the school board in calling a bond issue, and laid before the audience the advantages of a sewer, for which they want a \$150,000 bond issue. A vote was taken, the voters standing 25 to 2 in favor of the school bonds. Councilman Grimwood made an impassioned speech for sewers and the meeting adjourned while he was still on his

SCHOOL BOARD MEETS SITUATE The Pledmont board of education took steps to meet the same situation last night at Mowbray hall.
"We must have the schools," says School Trustee Walter S. Brann, "for our students are debarred from Oak As for the criticisms of the bond issue, as argued at our meeting by the two councilmen, they are are follows: That a \$250,000 high school is not

large enough.
That it is too large. That we cannot build a schoo good enough.

That there are not enough pupils

"From this," concludes Brann, "It "If we do not win this bond election," it can be seen that the idea is to criticise the school bond issue from any angle, no matter what. We direct tax. One thing is clear, welcome house to riticise the school bond issue from the well probably have to make a criticise the school bond issue from the well probably have to make a criticism. We direct tax. One thing is clear, the delegation to the Republication of the convention will so uninstructed. any angle, no matter what. We direct tax. One thing is welcome honest criticism. We have Piedmont must have a hig secured the help of the best specialists who could advise us, we have the rulings of the district attorney we have the rulings of the board of education, and we will have the aid of some of Piedmont's best citizens when we choose our high school site. We are doing the best we can.' SEWER CHAMPIONS PERSIST.

Councilman Grimwood says he is for first position on the Republican for the sewer. Councilman Wolfe says the same. Councilman Moore ballot in the primary. The requisite says the same. Councilman Moore ballot in the primary. Established 1896

23 Solid Years of

Dental Success in

California

It is nearly a quarter of a century ago since I first started to practice dentistry

What a marvelous change dentistry has taken for the better in these years-\$25.00 crowns were reasonable then-\$50.00 plates and \$10.00 fillings were accepted as a mere matter of course. Some of our good people used to boast of having \$500 worth of dental work in their mouths. Those were some times-for the rich.

Everything in dentistry was painful except the dentist himself. The average dental office was a miracle of insantitation; and not because of it, but in spite of it, did the people manage to live. With such a dental condition prevailing everywhere, can you blame me for "busting" out into print with my propaganda of better dentistry and low prices for the mass of people?

Procaine which assures painless, pleasant and safe dentistry, a guarantee on dental work that is worth something makes Anderson Dependable Dentistry today mean the very best in dentistry. It means that there is no dental work superior to Anderson Dentistry—it means there, are no benef materials used than are obtained in work done in an Anderson Dental Office. It means that all work is done painlessly and every new proven method to make dentistry sanitary, pleasant and safe is to be found in the Anderson Dental Offices. It means that all work is guaranteed and when you get an Anderson Dental Guarantee, you are getting the guarantee that has more behind it than any other dental guarantee given in California.

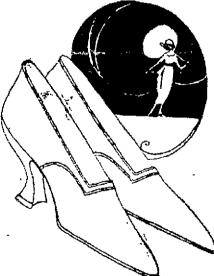

It means that Anderson prices for the best dental work in the world are but one-balf what others charge.

50 Dozen Four-in-Hand Ties. Beautiful spring natterns and colorings. A good heavy quality and line.

150 Women's Suits

Home Sewing Week has never produced such wonderful values as these—suits which will sell regularly at \$82.50 \$58.35 to \$97.50. For this week

They are a very special purchase to clear up a manufacturer's overstock of high-grade navy tricotine suits-sold to us about 1/4 to 1/3 less than regular cost because we bought them all.

There are ten snappy models—perfectly hand tailored to the minutest detail, and every line expresses the acme of smartness. Most of them are of that plain English cut with mainish body coals which artful tailoring can make so dashing. But there is something different and distinctive about each model. Several are beautifully embroidered, and one for the younger woman has a Peter Pan collar and straight box coat opening over an embroidered duvetyn vest.

Sizes 16 to 46-Extra Large Sizes, 48, 50 and 52

Crepe de Chine Blouses

These are sports models for wear with tailleurs or separate skirts and of their many at \$9.35 tractions we select two to tell you of. First the material, which is of that heavy, lustrous grade of crepe de chine that will stand endless laundering and still remain beautiful. You are bound to like the styles because they are out-of-the-ordinary and becoming—and for the clever needling and finish, you will find much to admire.

Silk Jersey Petticoats

A good heavy grade of silk jersey tops them with a finishing flounce of lustrous two-toned taffeta. Eight of the most wanted suit shades. After closing time Saturday the price will be returned to regular—but for Home Sewing \$7.35

Week

Lustrous Cotton Petticoats

EVENTS OF THE WEEK

Washington:

By CHARLES KEELER

(Dedicated to the Sons and Daughters of Washington). The following poem of Charles Keeler, specially written for dedicated to the Sons and Daughters of Washington, was first read and presented on the occasion of the community entertainment given by the organization in the Oakland Auditorium, February 28, 1920, when 'Washington Weck" anniversary celebration was concluded

Nursling of liberty. Schooled in the wilderness, Mapping the metes and bounds of the frontiers Where the red men lurked with soft moccasined feet Great-hearted Patrician. Master of the crafts at the parting of the world ways.

Behind you was Europe, Cynical, wise in the arts of tyranny, Cruel, with the culture of blood-stained hands, Sirong with the sweat of the toll of the oppressed

Before you was the stripling America,

The unspolled youth, toughened by the conquest of war to places Looking straight into the eyes of the world Sinewy, elastic, daring all things, With a vision of a brotherhood of man

It was your genius, great father, That embodied the vision, That gave spirit and animation to the quest. It was you who dared where lesser men faltered, Unwavering, untiring, unconquerable.

Carrying a nation of free people in your heart. Through the winter at Valley Forge. Through weary years of hopeless war, Ever with the faith that cannot be shaken

Upon the white purity of your faith You laid the red stripes of sacrifice. And the stars of divine purpose Shone in the blue field of your heaven.

It was your heart that conceived the flag, It was your hands that unfurled it to the breeze: It was your vision that sent it marching through centuries.

O what have you bequeathed to us today? To this broad land that sweeps from sea to sea. To these diverse states held in a bond of brotherhood. To these many people welded into a family. What means your life, your memory, your trust.

A new world has dawned. A new life has stirred in the breasts of men, The frontiers are conquered and the horizon has widened

These super-men, whirled in magic cars. Diving deep in the sea and flashing through the air, Whispering eerie secrets heard across the seas. Playing with Mephistopholian fire like alchemists, These men are not the farmers of Lexington.

But the same spirit of liberty thrills in their veins. They love to benor you for the nation you conceived They call you father because you made liberty their horitage.

But by that very token they will not be enslaved to your words. From the very spirit and inspiration of your life. Are they led on to new adventures and new conquests, Ave. even as you would have gone on today, Expanding in love and charity and good will Making your America so big in spirit, That it would reach out and animate all lands, And cry unto them, brothers, join with us, In the love of God let us strive for a common end. The end of justice, liberty and love,

What May Cause Amnesia: One Strange Case Discussed

DR. LEONARD K. HIRSTERES A. B., M. A., M. D. (Jonbe Hopkins University)

Several queries have reached me with a request for an explanation chat strange malady which made Dr. John L. Brand, the famous "Dr. forget who he was and to whom e belonged.

Briefly, amnesia, or aphasia, apcars to have caused the extraordinary experience of "Dr. X. wandered into Lambertville, N. J., three days before Christmas. About three weeks later he was, identified by his son,

On March 23, 1917, Dr. Brand wandered from the home of his son, then in Cambridge, Mass. Nothing was heard from the missing physician from the day he left home until the night of last December 22, when he ought shelter in the Lambertville police station. His unkempt appearance, threadbare garments and frightened demeanor attracted the attention of a police officer. Questioned as to his business, Dr. Brand said in despairing tones: "I'm lost; please take me some place."

At first the conscious mind of "Dr X," as the wanderer was called, was completely dominated by the longforgotten unconscious mind. His talk has fragmentary and incoherent. He could make no connected statements as to who he was, whence he came or how. His mode of living was a complete mystery. But the impoverished condition of his body, the emaciation of the intercostal muscles and the tissues adjacent to the spinal column bore testimony to the fact that his food supply had been limited.

It was while physicians were discussing his case that "Dr. X." first showed signs of a dawning intellect. During the talk Dr. William S. Hatch conjectured upon the possibilities of benefit worked by an adjustment of the vertebrae. At once a vital spark was struck.

"Vertebrae!" exclaimed the mysterious "Dr. X." "Let me think. Yes, the vertebrae form the backbone. He then went ahead, dividing the and pushed northward for 500 miles the exact number of segments and iried on with enthusiasm a conversation on anatomy and the functions scientific lines to the great amusement of physicians present.

"Dr. X's" lecture, for his talk was In his first north polar expedition, nothing less, established beyond perwhich lasted for four years, 1898- adventure the fact that he was a known and could not aid in any way in establishing his identity, and so was called until his son identified

Commissioner W. J. Baccus will assume charge of the department of revenue and finance, and Commis-sioner W. H. Edwards will take over the street department on Monday morning, following the action of the council Friday in finally passing the ordinance switching the two department chiefs.

The ordinance went into effect

resterday at the moment of passing, out an agreement was entered into between the two commissioners whereby the actual change of management will not be made until Mon-agement will not be made until Mon-day morning. Both commissioners were busy today arranging affairs in the two departments for their departure and the new administration Commissioner Baccus announced that he would not touch anything in the department of revenue and finance until the books and affairs of "That's fine," replied the New matter and the orders were placed the department have been thorough-Yorker. "Buy me so and so many of this colonial. Be sure you place the orders among about eight houses Buying of the colonial from seven to eight houses?"

matter and the orders were placed by gone over by an expert, and that for the time being, and until a report on the condition of the department have been thorough. to him, he will be commissioner of revenue and finance in name only,

TO INVESTIGATE BOOKS. Intestigation of the books will start Monday by an accountant of the firm of Haskins and Sells, who was authorized in a resolution passed by the council yesterday to investigate the financial condition of the city and the condition of all departments under the direction of Mayor John L. Davie. His first duty will be to clear the department of revenue and finance.

Two resignations in the department of streets, following the switch, were announced today. Miss Blanche Steele, formerly senior clerk under Commissioner Baccus, has accepted the position of contract clerk in the school board building organization under Chief of Construction Marston Campbell, at a salary of \$150 a month, Her sister, Miss Bernice Steele, formerly junior bookkeeper in the same department, also tendered her resignation this morning. No other resignations as a result of the transfer of Commissioner Baccus have been made known yet. MAKE APPOINTMENT.

One of the first official acts of Commissioner Edwards in taking over the department is expected to be the appointment of a superintendent of streets and ex-officio city engineer, to fill the place recently vacated by the resignation of Harston Campbell. No intimation has ver been given by Edwards of his choice for the place.

In taking over the department of revenue and finance, Commissioner Baccus automatically takes a seat on school board, the commissioner of that department being an ex member of the educational

SAN FRANCISCO, March 20.— Bertha H. Rice, president of the California Wild Flower Conservation League, today announced the state's sixth annual wild flower exhibit will be held April 22 to 24 in the St. Francis Hotel here.

An added interest to this year's exhibit is assured all nature-lovers by a term collection of Collection.

by a rare collection of California birds, meant to emphasize the value of natural flora in relation to the conservation of bird life, some birds being dependent during a portion of the year upon the native seeds and berries. Many school children throughout the state have been urged to take up this important

Scientists and flower lovers throughout the state are interesting themselves in the big annual wild flower display. Following are some who will take active part in the

Mr. and Mrs. Luther Burbank, Dr. David Starr Jordan, Dr. Ray Lyman Wilbur, Dr. L. Abrams of Stanford University, Dr. John C. Herriam of the University of California and chairman of the National Save the Redwoods League committee; Dr. B. W. Evermann, director of the California Academy of Sciences: Hon. William D. Kent: Dr. Aurelia H. Reinhardt, president of Mills College: Dr. F. W. D'Evelyn, president of the Audubon Association of the Pacific; Dr. Frederick W. Bade president of the Sierra Club; R. F. O'Rourke, president of the Tamal pais Conservation Club, and Mr. and Mrs. Theodore Hoover.

A visual demonstration at which romen of Oakland will be taught to distinguish between the various cuts of beet and lamb, will be given in the council chambers, city hall, tomorrow by C. E. Schmidt, local member of the federal fair price commit-tee appointed last month by U. S. District Attorney Anotte Adams, The lecture which is presented under the auspices of Oakland Housewives' League, Mrs. L. C. Grasser, president, is designed to assist women in reducing the high cost of butchers' bills. According to Schmidt the women may materially decrease their meat bills through a knowledge of cuts and their relative prices. He will offer recipes for cooking the cheaper parts to make them pal-atable. Al women of Cakiand are invited by the Housewives' League to be present to take advantage of the free demonstration. A portion of steer and lamb wil lbc cut into parts before the audience.

Provisions of the Lever act will be discussed by Attorney Victor A. Dunn. Whether this act is able to curb the profiteering landlord will be conidered. The program is an sounced for 2 p. m.

ORCHESTRA TO PLAY Technical High Parent-Teacher esociation will meet tomorrow in Room 35, commercial wing, when a program of music will be offered by the school orchestra and an address on "Community Property Laws" will be delivered by Mrs. Frank Law, president of Oakland center, Californla Civic League. An informal tea

-And Springtime's First Important Turnout!

Mrs. Ella M. Bishop, wife of Sher man A. Bishop, formerly head of the S. A. Bishop Lumber Company of San Francisco and now manager of the Southern Brazil Lumber and Colonization Company, was granted an interlocutory decree of divorce by Judge E. J. Brown yesterday. The Bishops formerly lived in Berkeley, on Euclid near Marin avenue, but sold their fashionable residence there about a year ago. Mrs. Bishop went to Brazil last June to attempt ta reconciliation, but failed.
The charge was desertion, which,

according to the testimony of Mrs. Bishop, took place June 4, 1916, Mrs. Bishop occupied the family residence until it was sold.

Mrs. Bishop declared the community property consisted of \$25,000 in money and that there was a large amount of other property, the nature and value of which she did not mow. She said her husband received more than \$1000 per month as salary and asked \$300 a month alimony \$225 a month for the support of two minor children, \$750 attorney fees and \$50 for court costs, besides half of the community property. A property settlement was made outside of court by which Mrs. Bishop receives \$5000. The matter of alimony and naintenance for the children will be

aken up Monday.

Woodcock Lawyers Menaced by Jail

SAN FRANCISCO, March 20., -William Kehoe and Clifford Connick must answer questions or go to jail, according to a ruling today by Judge Ward. The two attorneys for Edgar Woodcock will again be brought before the grand jury and asked for information regarding the whereabouts of their client. If they refuse to answer, they will be ordered into court again and sentenced to jail, Judgo Ward said. Kence and Connick in that event

Meanwhile, no trace has been found of Woodcock, who is wanted for perjury in connection with his trial for the killing of Edward Kelly.

We Give American Trading Stamps

By ROBERT J. PREW Universal Service Staff Correspondent LONDON. March 20.-Not since LONDON. March 20.—Not since the Paris authorities ordered his Sphinx memorial placed over the grave of Oscar Wilde to be hidden beneath a clath cevering, has Jacob Epstein caused such a deep artistic sitr in Europe as that created by his sculptured conception of Christ Hisen, recently placed on exhibition in Lundon.

lisen, recently placed on exhibition in London.
London.

against the work, a symbolical representation of the Lord. The figure, still bound in winding sheets, stands upright, with head slightly raised and feet side by side, in an attitude of quiet demonstration. One finger of the left hand points to the wound in the right hand. in the right hand.

in the right hand.
Clergymen condemn the features as coarse and the protruding lips as sensual, while artists question the propriety of showing Christ with a heardless face. All day long crowds of people are filing past the figure at the Leicester Galleries, and lay opinion generally takes the view that Epstein has treated the subject ir-

reverently.
"I hope I am neither mad nor eccentric, as is charged," said the sculptor. "I don't say the figure is unconventional. It is, of course, my own conception of Christ, and the figure I have produced appeals to me as one of infinite pity looking rupon a world of sorrows with deep

compassion. . True, I have departed from the usual conception of Christ as por-trayed in paintings and sculpture, but there can be no such thing as a type in this great subject. No material likeness of Christ exists and an artist, if he wishes to be true to thimself, must put forth his own

ideas.

"This figure of Christ has been in my mind for a long time, and in such a profound subject there are great psychological complications which cannot convey the same impressions to every one. If any one sees offense I can only say that our ideas of what a work of art should be fundamentally differ. I had no theological point to illustrate; moreover, it is not an illustration, but a symbolical figure."

Tusks of some elephants weight as much as 200 pounds.

EGGS WERE BAD, CAUSED A PANIC WHEN BROKEN

KANSAS CITY, Mo., March 20.—
In order to test the veracity of a witness in the case of Horace Johnson, complainant, and B. K. Koenigsdorf, grocer, defendant, an egg was broken in the South Municipal Court here the other day. A miniature panic followed, while a bailiff was hastily ordered to remove the egg from the courtroom. Koenigsdorf drew a fine of \$100. \$100.

Johnson bought a dozen eggs from Koenlgsdorf, found eight of them to be bad, and had Koenigs-dorf arrested when the grocer refused to refund his money. John-son brought the remaining four eggs to court.

U.C. COURSE TO

Oakland's importance as an in-dustrial center is recognized in the courses in community-service train-ing which the Extension Division of the University of California is to start at the Oakland Technical High school, beginning at 8 o'clock Mon-

day evening.

John Collier, prominent community service worker of New York, has been assigned by Prof. Leon J. Richardson, director of University Extension, to deliver the chief lectures at the institute of community. tures at the institute of community service and Americaization. He will devote a large part of his time to a discussion of the industrial problems of Oaklad as they are affected by immigration and as they may be roved by community service

The Americanization institute will continue for five weeks.

John Collier will give two lecture courses, one on Monday and Wednesday of each week, beginning at 8 p. m., and the other on each Tuesday afternoon at 4:30. He will also conduct on Thursdays of each week from 4:30 to 6 a seminar course of

study in community service.

Dr. Edgar Dawson, who is to lecture on the teaching of government in the schools, particularly to alien classes, is a recognized authority on political science. Professor Daw-son's classes start April 5 and will be given on Monday and Wednesday of each week, from 5 to 6.
Miss Hulda Youngberg of the
Oakland School Department, and

Mrs. Mahel Farrington Gifford of the University of California faculty, are to conduct a course in the technic of teaching English to foreigners.

Miss Ethel Swain of the Oakland school department, will conduct classes in field work in which the students will apply the lessons in formula to the students. community service which are presented by the lectures. Miss Swain will be supported by the co-operation of Miss Ethel Richardson.

During the institute addresses will be delivered by George L. Bell, I Carol Aronovici and Justin Miller,

Baby Fed Bichloride Tablets: Is Critical

PORTLAND, Ore., March 20.— Eleven-months'-old Eobby Sandholm City Hospital today as a result of being fed "candy" in the form of bichloride of mercury tablets admin-istered him by his three-year-old brother, Buster. The family had packed their household goods about to move and Buster came upon the family medicine chest on the diningcom table. Observing some nice little candy pills in a corked bottle he invited Bobby to have some. The little tot displayed no reluctance to taste of the pills and now lies close to death.

Playground Notes

Playground children are preparing a new series of little plays for the next production at the Children's Educational Theater, which will be given early in April. The dramation club at Tompkins school is rehearsing 'Cinderella."

At De Fremery a new dramatic club has been organized with about twenty members. Antoinette Nunes is the president of the club, which meets every Wednesday for instruction with Mrs. Emelle Hollington.
"The Easter Rabbit" is the play.

the bride's family, one of the oldest in Oakland.

"Fandango" to Be Revived for Old Missions

By SUZETTE

Those of us who have the Spaniards and the Mexicans have made their home, visualize a picture of swirling, twirling, gyrating flash-color—red and yellow mostly, with black eyes flashing and arched feet stepping to the

guitar and the fiddle. And most of us remember in our childhood many stolen glimpses into mysterious houses of mirth that we skirted by on our way to school, when we heard the lift of the music, whose cadences we knew so well. Ah, those were romantic days, when all the world was young.
Well, the fandango is coming

back.
The Mission Restoration Association is bringing it back; planning a Spanish fandango—though between you and me I think it should be a Mexican fandango—but that's a small matter, so long as it comes. with its dash and spirit and fun. The old world never needed some real fun as it does today, when we are all so weary in making believe we're having fun, when, were the truth known, we are bored to ex-

But here comes something of the spirite of the people who were rich in the power to enjoy—a simple people who grew up around the picturesque missions and in the presidios

and pueblos that flanked them.

The fandango will be given on April 17 at the Auditorium across the bay, and it is to be a costume ball that promises to set a new pace for a make-believe party-a Mardi Gras and Mi Careme and a studio party in one.

And since the fund accruing is to be devoted to starting a fund for the restoration of California's missions-her richest assets-every loyal Californian should arrange to go who can.

The welfare committee of the

hoard of supervisors is standing back of Chairman W. P. Caubu of the committee on finance and with the full force of the entire executive board to boost the affair along. Already nearly all the representa-tives of pioneer families-and many

who are not of pioneer families, but who love the missions and want to do their mite to save them before it is too late—are planning already to take boxes and to make up parties that will add color notes—as well as

exchequer to the affair.
Indeed, nearly all the revelers at
the Mardi Gras of recent memory
are already equipped to appear at the landaugo, as the Shrove Tuesday affair was given over to California characters.
It promises to be great fun.

AT LOS BANOS

Mr. and Mrs. Leroy Nickel ares after having spent the winter across the bay with Mrs. J. Lercy Nickel. The young people had a merry winter of it after Mr. Nickel's re-covery from the injury he received ast spring, but as the entire family is plunged in mourning over the passing of Mrs. Frederick McNear the Nickels will pass a quiet summer at-their country place, with a run to town when things begin to boreif ever they do with these enthusiastic farmers. 4 4

Charter Day to Gather "Grads" At Big Dinner

All things point to an exceptional attendance at the annual Charter day dinner that gathers the alumnion the University of California together once a year for a playtime. with Wigginton Creed, president of

the alumni, presiding.
The dinner at the Hotel Oakland on Tuesday night holds a special interest this year because of the presence of the new president, Dr. David P. Barrows, who will undoubtedly have something trenchant

Arrangements for the dinner can be made by communicating with Secretary Don O. Peters.

Dr. Paul Reinch will be the prin-cipal speaker of the dinner. when memories of those wonderful days when life was bounded by what hap-pened in college will be refreshed and lived over again.

FROM EAST

"Welcome homes" were extended Mrs. Harris Cebert Capwell on her return a few days ago from West Point, where she had been the guest of Major and Mrs. Reginald Bifield Cocroft, her son and daughter, the officer having been detailed at the academy for two years.

Mrs. Capwell returned in time to

see her son. Cebert, off to the "Isl

Now that the Oakland matron is at home the Presidio will see much of her, where her other daughter, Phyllis-Mrs. Frederick Seydel-is making her home.

The Seydel home is one of the most interesting of the groups of officers' quarters, but a bit remote from car service, which sadly complicates the servant question, already a tragic affair the world over. But where the chatelaine is as resourceful as Mrs. Seyael, who, inresourcetti as Mrs. Seyuer, who, in-cidentally, loses none of her sartorial charm in the doing, the problem is negotiated with ease. Indeed, in these lean days of service, many an army girl has learned her own capabilities for the first time and has found happiness in the doing.

LOCAL SPIRIT

The Home Club, like its proto-type the Claremont Club, epitomizes the social spirit of the Eastbay-a neighboriy sort of hospitality that broadens out to the community. The monthly luncheon, held on Thursday at the clubhouse atop the

hill, was quite an extraordinary af-fair. It's a vulgar thing to refer to. but begging your pardon, may I not say that the club set before us real n many years of our young lives attending club luncheons have grown to be materialists, particularly when an afternoon's work is sitting on the desk to be gone through with when the luncheon's over, and one needs food to go on. Score one for the Home Club.

Mrs. Edward S. Hough, president of the club, made a charming little speech, presenting the guests of honor and the stars of the day Miss Jean Campbell MacMillan of the University of California Extension, a public reader with a fine per-sonality, her accompanist. Thomas Frederick Freeman, and Miss Cecile Stevens, from London, a clever little violinist, who is immensely goodlooking as well as an intelligent in-

Dr. Amelia Henry Reinhardt, who always says something when she talks, was particularly happy in her little chat upon the campaign Mills College, "the only woman's college west of Chicage," is making to equip herself to care for the incoming students from all over the country—dozens of whom are so insistent upon attendance that they doubling up" in a way that is the strongest argument possible that something must be done and done at once. "Our friends from Smith at once. "Our friends from Smith are asking for an endowment for their aima mater, and our very good friends from Bryn Mawr are urging generosity to the Pennsylvania col-lege, with Miss Helen Taft the able emissary, and Harvard and Yale are

calling from the housetops to the old alma. But let us not forget in our generosity that Mills is in Oakland, California, and is the only

FROM SOUTH

It was a warm greeting that went out to Mrs. John Henry Russell (Amy Requa), who came "home" on Sunday on a brief visit with her grandmother, Mrs. Isaac Requa, at The second, to be heard on April, grandmother, Mrs. Isaac Requa; at 14 at the Augustus Macdonald home, most, and with Miss Elizabeth mont, and with Miss Elizabeth

"Milgrim" and "Mangone" Hand Tailored Suits

"The preference of bestdressed women everywhere'

TO BE PROCURED IN SAN FRANCISCO ONLY FROM US

IN accordance with our ideal to offer only that which is supreme in its field, we present these renowned models, the highest achievements of artistic tailoring, the products of makers who, from a wondrous choice of fabrics, of modes, of exquisite detail, have evolved these superb examples of the custom-

Suits from "Milgrim" and from "Mangone" are differentiated from the ordinary, by

The distinction of design—Each suit is created from designs originated by the makers of Fashion. Every detail is studied in its relation to the whole—the result is an artistry of line always individual in its effect.

The perfection of line, due to the custom-tailoring— Each suit is made separately, cut and stitched individually. One tailor creates each model, thereby securing the superb harmony of line hitherto thought obtainable only from one's own per-

The exquisite quality of fabric and of workmanship— From the basic material to the smallest item of thread and stitchery every detail entering into a "Milgrim" or "Mangone" creation is of an excellence to appeal to those of fastidious fancy.

A variety of choice in models for all types of figures— The individuality of fashioning is made evident in modes for

figures that are youthfully lissome, and styles equally as well designed for matronly types. Extra large sizes, too, fashioned to give an effect of slenderness.

Women of critical style-appreciation will approve these new suit modes in the correct fabrics and colorings.

Smart Suit Modes

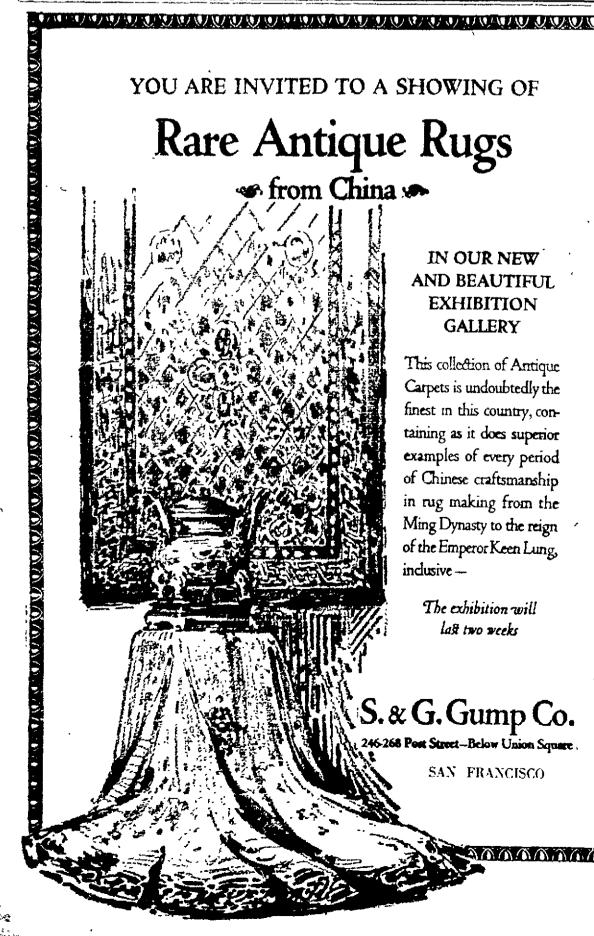

AT POPULAR PRICES

\$59.50-\$69.50-\$89.50-In design, fabric and workmanship are expressive

of I. Magnin & Co. distinctive standards. Modes for all figures in the desired materials, with particular emphasis upon Navy Blue and Covert Shades so newly approved by fashion.

Used to think that plowin' fields held nothin' interestin' Until I learned to hear the birds an' watch 'em at their nestin' Used to think the rows were long an' difficult to follow Until I got to lookin' for a certain friendly swallow; Used to curse the tasks I had an' all the ties that bound me

Until I woke one day to see the blossoms all around me.

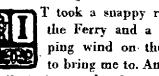

Then I was sick at heart an' sad an' grumbled at my duty, I only saw the muddy earth an' missed its lovely beauty; The yellow clay was on my boots an' it was hard to clean them Yet they had walked on violets an' I had never seen them; Then men were only men to me who toiled for meager payment— Until I learned to see their souls beneath their outer raiment.

But now, although the work be bard, I know there's fun behind it, For I have learned at every turn that I may surely find it; An' I have learned to know the birds an' every song they're singin'. I know just where they build their nests an' just what food they're bringin know the wild flowers by their names, an' where the partridge bover, An' I am always on the watch for what I may discover.

Individualism Gone Mad at 'Modernist' Show Over Bay

By LAURA BRIDE POWERS.

By LAURA BRIDE POWERS.

By LAURA BRIDE POWERS.

By LAURA BRIDE POWERS.

Took a snappy run to the Ferry and a whipping wind on the bay to bring me to. And I'm white brow and asking dizzily, "Where am I at?"

I knew it was coming. Mr.

With more oxygen and in obedience to the planetary laws of disconting the property of the planetary laws of disconting the canvas after one has switched off the mind and succumbed to feeling; and the tis something. But harmony and rhytam have been known to exist in canvases of this brilliant young canwases of their ranch, and because gases from the newly located canwases of this brilliant young canwases of their ranch, and the canwases of this brilliant young canwases of their ranch, and the canwases of this brilliant young canwases of this brilliant young canwases of this fine collection, is on exhibition there other the ranch and the canwases of this brilliant young canwases of this fine collection, is on exhibition the many instances, according to decidency in the gaster from the well

raguely out of a nebulous mass.

Marin, Man Ray, Preston Dickinson, democracy of art, in spite of all. And Charles Sheeler, A. Walkowitz, Mac-donald S. Wright, the Zorachs, Will-los Angeles had the show, and donald S. Wright, the Zorachs. William and Marguerite, Alfred Maurer, Ray Coyle (the San Franciscan).

Marsden Hartley, Henry L. McFee and a lot more who are not so well and a lot more who are not so well and a lot more who are not so well and a lot more who are not so well a lonic as our southern neighbors.

But now that I'm rallying, and to enjoy the spring, one the worse for the shock—perlans better, because a lot of nervelans none the worse for the shock--perhaps better, because a lot of nervecenters that have been spring-feverish, woke up-I recommend the Rembrandt Lectures show as administering the biggest At Art Palace "kick" ever. Not all of it is recommendable, even at that—Heaven forbid. But some things in it are understandable and even create pleasurable reactions. For instance, there are the content of the content of

ists and outlies and not a few to listen to Director Laurvik's intommyrotists who simply don't regretation of the collection.

Ister. If the fault lies with our The interest in this exhibition is poverty of imagination—two painter far surpassing all expectations and fairness recommends. for let us say. Man Ray, to label ago, In its amazing diversity of his pictures in order that one may subject matter the exhibition holds know what he is trying to say?

In appeal for the man in the street New York had an exhibition of as well as for the connoisseur. this follower of Picabia, whose con-

again the esthetic deprivations we of the western rim of the world are of the western rim of the world are traits, landscapes, genre pieces, etc., forced to undergo. But now that we have gazed upon his "Portrait" and his "Landscapes." we may agree that we were spared a lot; determinative were spared a lot; determinative that it is the statement of the spare and the spare of the spare o ing that it isn't difficult to understand why he was called the "alr-

perspicacious critics, who went on to say "the misty forms in his canvases might have been blown on with an air-gun, which he may have guided, or he may have just wobbled the canvas when he was shoot-AIR-GUN ARTIST.

May Ray, who made so much talk in Gotham, is, methinks, without much sympathy either there or here where the traditions of good painting still obtain. And by this is meant "modern" painting in its same sense, where the great body of tradition passed on to us from Rembrandt and Velasquez and Claude and Turner and Goya and Courbe and Monet is still the essence of production, plus the personal viewpoint of the painter. But with May Ray and his confreres, in doing away with the trappings of the old art, they have done away wholly with

This work is unintelligible without a glossary, and, since art is a iniversal language, theirs is not

But notwithstanding that most of these men can say nothing without carrying a label—a sort of personal shorthand—some of them may be sincere in their experimentation.

And if they are, it's our business to stand still for a few minutes to listen to them, in the hope that they can make themselves understood. The best things-sane and human things in the show are offered by A. Walkowitz. He offers "The A. Walkowitz. He offers "The Beech" and "Pastoral," both pleasing in pattern and charming in color. but reminiscent of Maurice Prendergast, whose arabesque abstractions at the Post Exposition startled us and then held us for their beautiful color quality and design. Those Prendergast things recall the hap-

The aforesaid Mr. Wright, who conducts an art school in Los Angeles, presents "Canon Synchrony." "Airplane Synchrony" and "Fantasy after Bach." My enfeebled intellect fails to recall the last, but the other two are before me in all their gra-dations of color-masses, their

swoops, curves, planes and angles.
But what the idea is that the painted had back of his forehead vas an enigma to my painter friends and myself until we looked up the titles. After a wearing mental ef-fort, the "Airplane Synchrony" began to unfold itself. A thin association of ideas finally led us to un-

EASTER FASHIONS

of a refreshing newness that captivales the eye and fancy of all smartly attired women

Easter Fashions! Seemingly never so lovely before, and it is the pride of this shop in announcing the completeness of our Easter stocks to have the privilege of displaying the smartest and most distinctive modes of the hour in assortments that tempt the fashionable woman "who knows."

> Easter displays are now in full bloom on "The Floor of De-light." our newly remodeled second floor.

Easter Suits Are Beautiful

We mean, of course, the delightfully different suit modes now on display here. The Springtime Eton leads the fashion with its youthful, flattering lines developed in a great variety of clever effects; hipline-box-back suits, charming tailleurs, new flaring styles and others in handsome fabrics and new colors-are here at \$49.50. \$65 and up to \$95.

Individual Suits and "Models" of exquisite fashioning are priced at \$98,50 and up to \$245.

Easter Dresses Which Fashion Created for You

Dresses! Oh, so many, in variety that presents modes of rare daintiness and smartness for every daytime occasion—silken frocks of satins, taffetas, crepe meteors and tricolettes with elegant new drapings, silk frocks of every expressive shade; dresses of tricotine, of finely-woven serges and many other fabrics—with the muchly beruffled and bouffant modes offering wondrously new style ideas to the Easter miss or matron-\$49.50, \$59.50, \$79.50 and up to **\$125**.

Easter Coats and Wraps

The more moderately priced lines display many new three-quarter and fulllength coats with full-hanging backs, of box-pleats, pockets of the novelty designs of Spring and belt effects in variety. Velours, tinseltones, tricotines, Bolivias and others-\$49.50, \$65 to \$95.

> -And the finer, more luxuriant, loose-flowing praps of Duvetyn, the soft Peach-Bloom and the like in rich shadings-\$98.50 to \$185

Frenchy Hats Are the Easter Vogue

-And they're a real "hit," too. Small turbans, overshowered with flowers, straws with flowered edgings; then come the lovely hats of maline, so soft and flattering, the larger hats of Visca straws and Cellarphane, the sensational fabric of Spring, and scores and scores of others up to the individual "modes" at \$15, \$18.50, \$22.50 to \$35.

Novelty Blouses Are Here

They're the very smart 1920 Cosaques of delicately shaded Roshanara crepe with graceful peplums, white leather belts and novelty embroidery. Others quite new are of the shimmering Fanta-si in overblouse styles, Georgettes and crepe de chines with clustered tucks, laces and lattice-work embroidery-regulation blouse styles, \$12.50 and up; overblouses, \$12.50 to \$40.

Have Pretty Teeth

Remove That Dirty Film

All Statements Approved by High Dental Authorities

A 10-Day Tube ree of Pepsodent, to show you how to end film. See below.

Look in the Glass

Look at your teeth in the glass. Then brush them in this new way for ten days and look again.

There is a film on your teeth—a slimy film. It clings to the teeth, enters crevices and stays. The tooth brush does not end it. The ordinary tooth paste does not dissolve it. So it stays between the teeth and elsewhere and may do a ceaseless damage.

That film is what discolors - not the teeth. It is the basis of tartar. It holds food substance which ferments and forms acid. It holds the acid in contact with the teeth to cause decay.

Millions of germs breed in it. They, with tartar, are the chief cause of pyorrhea. Thus most tooth troubles are now traced to film.

Dental science, after years of searching, has found a way to combat it. Able authorities have proved it by many careful tests. Now the method is embodied in a dentifrice called Pepsodent, and leading dentists everywhere are urging its daily use.

A 10-Day Tube is now supplied to everyone who asks. Test it and see what it means to you.

A Week Will Tell

The results of Pepsodent will be a revelation. A week will show you that there is a way to whiter and safer teeth. For your sake and your children's sake, make this test and see.

Pepsodent is based on pepsin, the digestant of albumin. The film is albuminous matter. The object of Pepsodent is to dissolve it, then to day by day combat it.

But pepsin must be activated. The usual method is an acid harmful to the teeth. So pepsin long seemed barred. Science has now overcome this trouble by discovering a harmless activating method. It is that method which makes possible this efficient film combatant.

You can prove the effects, and quickly. Send the coupon for a 10-Day Tube. Note how clean the teeth feel after using. Mark the absence of the slimy film. See how the teeth whiten—how they glisten—as the fixed film disappears.

Compare the results with your old methods. Learn what clean teeth mean. Then let your own mirror tell you what is best. This test is most important to you. Make it at once. Cut out the

epsodeni The New-Day Dentifrice

After convincing tests, it is now advised for daily use by leading dentists everywhere.

Chamber Music Group to Have Two Concerts in One Day at Berkeley Light Opera Here For Five Weeks

Violinist Is Added To Oratorio Soloists

by ROY HARRISON DANFORTH.

WO programs will be offered in Berkeley on Wednesday by the San Francisco Chamber Music Society, that most excellent organization of players which has so often delighted us both bay. The first will be in the after-noon at the children's concert at the Berkeley high school auditorium, which William Edwin Chamberlain is again managing this year, and the other at Wheeler Hall, on the Uni-

versity of California campus, in the evening. The latter will be the sec-ond concert of the series which the society is giving under the manage-ment of Professor Sam J. Hume. The society is composed of six artists who have won to a high degree of proficiency through their talent, their love for their art and their constant practice together. They are Louis Persinger, first violin; Louis Ford, second violin; Nathan Firestone, viola; Horace Britt, cello; Elias Hecht, flute, and Gyula

cello; Elias Hecht, flute, and Gyula Ormay, piano.

The program for the children's concert, which is open only to pupils of the Berkeley schools, is to be as follows: 1. Novelette, opus 15 (Glazounov); 2, quartet in C major for strings and flute (Mozart); 3, Andante Cantabile (Tschaikovsky). Scherzo (Caesar Franck) and "Molly on the Shore" for string quartet (Percy Grainger); 4, quintet, opus 30, for strings and piano (Goldmark).

Violinist Engaged For "Stabat Mater"

Paul Steindorff announces the addition of Mrs. Mildred Wright to the already extensive list of talented folk whom he has gathered for the tenth annual production of Rossini's ora-torio, the "Stabat Mater," at the Greek Theater at Berkeley on Good Friday, April 2. Mrs. Wright is a violinist of very real accomplishments and her solo playing in the oratorio is expected to add mightily to its interest.

Rehearsals of chorus and orchestra for the oratorio are regularly

proceeding and soon will be supplemented by the rehearsals of the capable quartet which has been selected. Heading this will be Mabel Riegelman, erstwhile prima donna

There is but one thing you need o beautify your skin and bring t to a condition of incomparable

Tou can easily prevent hair from falling, and you can make it grow thick and luxuriant by a very simple method, which is far superior in results to that of any so-called hair tonic you can buy. You will notice the difference in your hair in a very few days.

The only thing that will do this is neroxin. You sprinkle a little will at once begin to fill with new hair. This is done by simply addingtone ounce of bets-quinol for a few moments. Looking in to a half pint of water and a your mirror, you will find the witchhazel instead of the water and by rum. The bots-quinol in longer use tonics, face-steaming he procured for fifty cents at any drug store. Try this and of hair coming out on your comb

Or It You Wish a Shampoo.

There is but one thing you need to beautity your skin and bring it to a condition of incomparable loveliness in a short time. This has been used by thousende of women with extraordinary success. By the use of this cream you will soon find that all red spots freekles, all muddiness and sallowness will have disappeared completely. leaving the skin pure and clear as a lily. You cannot get this result except by mixing yourself at home. In a very few moments, one ounce of zintone with a little glycerine and hot water. The zintone costs fifty cents at the drug store. This makes a remarkable cream, which, when used liberally, will not fail to give you the results.

Another Cream for Wrinkles.

It is really inspiring to know that removing wrinkles now depende almost entirely upon yourself. Just a few minutes trouble at the start and more than half the battle is over. It will take but a few moments for you to make a mixture of two ounces of eptol, a little water and glycerine. The eptol can be obtained from your drugust for fity cents. This cream produces starting changes in the skin in a short time. It renders the skin in a short time, it renders the skin in a short time. It renders the skin in a short time, it renders the skin in a short time. It renders the skin in a short time, it renders the skin in a short time in the start and more turning to the same and the result is that wrinkles fill out and

to further the love romance of a wid-

YE LIBERTY

TENNDON, March 20. -- Barristers her recently have been debating the guestion of how much a wife is worth money. The discussion must have mude quite an impression on some wo, es for, it is reported, they are now ming the right to be paid regular

The situation has provoked the to owing comment from Myron Par-(a) a writer in the London Daily Ex-

Life is rather dull and common-place just now, and I am for lighten-ier it up in every way possible. Wages for wives will do a lot toward foring the drab monotony of exist-

The luckless bridegroom will have to guarantee something more ma-terial than love in his marirage vow. "I take this woman for my lawful wife," he will probably be called upon to say, "at a salary of five pounds five a week." And the bride will then promise to love, honor and obey for and in consideration of the weekly five-guinea emolument.

The girl who marries well will find

The girl who marries well will find immense satisfaction in the newspaper announcement of her matrimonial achievent. "The engagement is announced." it will read, between Captain Coiney Gotrox, of Golden court, Mayfair, and Constance, only daughter of Mr. and Mrs. John Slimpurse, of Brixton. The bride's stipend will be four thousand

PROBLEM PRESENTED It will afford many a wife a smug and satisfying sense of superiority to learn that the pretty girl with the big eyes is only a three-pound-a-week wife. When the young man proposes, the lady will no longer have serve the classic reply. "See papa,"
This is so jolly sudden." She will say simply and more to the point, "How much can you pay?"
Then there is the problem of de-

termining just what remuneration a wife is really worth. Should the wife who stays at home and coos receive enore than the butterfly wife whose fintter in society advertises her hus-band's prosperity and importance? Is she worth more when young and comamental, or when old and experienced?

Perhaps we shall read in the classified columns of the daily papers advertisement such as the following: Wanted, wife, young, industrious and good looking," or, perhaps the advertiser, with Tony Weller in mind, will request the applicant to state previous matrimonial expertence, and salary required."
UNION FORESEEN

The lounge-lizard type of gallant, with an unlined pocketbaak and an honest abhorrence for work will, of course, scarcely be expected to pay his wife a salary. He will very likely advertise his willingness "to take an inexperienced young wife as apprenlice; premium required."

SAD SCHUSTER

MARCH 21-27.

It was a great day for the gas and electric companies when Laura Jean Libbey was born on March 22, 1862, for no other writer has kept so many persons sitting up nights. On March 23, 1901, the whole country was excited at the news that Aquinaldo, the Philippine leader,

had been captured. Rhode Island, the brave little State that is over fighting for the right to have a bead on its booze, was hought from the Indians on March 24, 1638, for forty fathoms of glass ones. Lord Baltimore's first-colony landed in Maryland in 1634 (March 25), and set about naming a cigar after their leader.

For keeping a still. Federal officers have arrested a man named Martini. Oh, the dry and sly Martini!

'TWAS A HOT ONE.

According to the Murphy news notes in the Calaveras Weekly Prospect when one of the bosses on the new bridge fell into the water, he emerged and "lighted his pipe with a grin." We used to know a fellow who lighted a cigarette with a sneer and another who used a shrug but until the price of matches goes up we intend to stick to the old scratch and swear system.

"Elastic War Plant Urged by Pershing," says a headline. Something to give Baker the bounce?

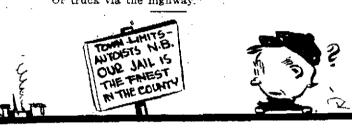

THE STATE MUSE.

without advocation is Tryou look for fur or you look 4 big She's the place you should be 31.

Among the songs submitted at Martinez in a contest there appeared was offered the following effusion of a soul who holds to the belief that poetic feet should carry commerce: "Martinez on the bay.

Foreign cargo, through freight or local, Deep water transportation, over land, rail Or truck via the highway."

If they keep on imprisoning men for speeding the Automobile Association will be hanging signs on the most comfortable jails.

THERE HE SITS.

Armenia's plains are burned and black. And famine there with murder dwells, We give our aid, but we can't forget The Turk still sits on the Dardenelles.

Among the exhibite the Democratic contention is expected to being to San Francisco is a thirst of a proportion never seen here before.

too much as a delicacy, and, therefore, not used nearly as much as they might be. For sweetbreads are not only an excellent substitute for meat, but they are decidedly more wholesome than many cuts. For those with imperfect digestions. sweetbreads are probably the best of all meat fools. Sometimes there is a misunderstanding as to what sweetbreads really are, for their name denotes nothing, springing merely from a sort of resemblance to bread. Sweetbreads are the panereas-the stomach gland containing the pancreatic juices which facili-tate digestion. For this reason sweetbreads can be eaten by many to whom various other meats and starches are not acceptable.

Sweetbreads should be carefully repared. First they should be soaked in water for about two hours, and the water should be changed at least three times during the period. Then put in a saucepan, cover with cold, salied water and simmer, skimming frequently. Cook for about 15 or 20 minutes, then place in cold water and dry. Remove skin, and then prepare for serving as desired. either fried, stewed, baked, etc.

A favorite method of preparing is AND JOHNNIE'S JOKE. to cut the sweetbread in slices, dip Copyright, 1920, by McClure Newsto cut the sweethread in slices, dip in breadcrumbs and beaten egg and fry in deep fat until browned. Well, go on, Johnnie. Tell me that the put one paw in his mouth, and his tail sort of drooped sideways.

the story about two apple pies costing as much as a piece of cheese.

The lady mouse teacher was just going to do this when, all of a sudden, Jacko Kinkytail, the monkey boy, looked over at Johnnie Rushytail and began to laugh For Johnnie

But when Johnnie got as far as that in came Uncle Wiggily, the nice was doing something to the seat in which his brother Billie usually sat. Billie's seat was right next to be much excited and in a great

"What is going on down there? Johnnie, what are you doing?" "Please, teacher, I'm not doing onything," said Johnnie, sort of moving away from his brother's empty seat. Billie was up at the blackboard just then doing his jumping-lesson by drawing a picture of two trees, to show how he could leap from one to another in case a hawk chased him.

mawk chased nim.
"Well, if you aren't doing anything now, you were doing something," said the lady mouse. "What was it?" Jacko, the monkey boy, raised his paw. "Yes, what is it, Jacko?" asked the

lady mouse. "Please, teacher, I think Johnnie was going to play a joke," went on Jacko. "He was going to do some-

thing funny with a "
"There, now! You know I don't

to get away from him. That's what makes me so out of breath. I came to fell you to hurry home andbut I want some souse!" suddenly cried a harsh voice, and there at the door, which Uncle Wiggily had left open when he entered the hol-المعال فعلنا بموجوع وأجاجاتك Pipsisewh himself!

"Oh, dear!" cried the lady mouse sucher. "What shall I do?"
"Just sit quiet," advised the bad ip. "I'll do all that has to be done. eacher. Pip. "I'll do all that has to be done.
I'll take Uncle Wiggily's souse," and
he looked hungrily at the ears of

ne bunny rabbit gentleman. Mr. Littletail looked around for a way to get out, but there was none. Johnnie Bushytail was still standing iear his seat. Billie's seat was va-

cant.

"If you please. Mr. Pip," spoke Johnnie boldly. "Will you not kindly be seated? Take a seat here in my brother's chair, and rest yourself after your long run. Uncle Wiggily's souse will taste much better if you rest yourself.

est yourself first." "I believe you are right. I will sit down." gargled the Pip. And as he went over to take a seat next to Johnnie, Jacko Kinkytail laughed very hard. But all the other animal children thought it was just terrible for Johnnie to be so polite to the bad Pip who wanted Uncle Wiggily's

But a moment later something rappened. The Pip sat down in Billies seat, next to Johnnie, and then the Pip suddenly sat up again

then the Pip suddenly sat up again with a jump.

"Oh wow!" he howled, catching hold of his hind leg. "School is no place for me! I'm not educated up to it. Oh, there must be very sharp questions here!" and away he ran, not hurting Uncle Wiggily at all.

"What made him go so fast?" asked the lady mouse.

"He sat on my joke," explained Johnnie.

"Your JOKE?" cried Uncle Wig-"Yes. this," answered the squirrel

boy, holding up a bent pin. "I was soing to put this in Billie's seat for him to sit on, just for fun. But the Pip sat there first." "And I'm glad he did," chattered. Billie at the blackboard, and so was the lady mouse. So she did not scold Johnnie, but said he must not do it again, and he didn't.

And if the milkman doesn't take

the icicle off the back porch to stir up the bottle of cream and make it jump over the lump of butter, I'll tell you next about Uncle Wiggily and Billie's bump.

A woman out in Reno, Nev., di- his own life in his own home, so vorced her husband the other day long as he doesn't insist on making because she said he was "coarse."

And a man down in Los Angeles divorced his wife because he said she wanted him go into. sonot let him sit in was company. sympathize with? ill so long. I'm sorry for

manners, a boist-

erous, erowing "I was sort of wondering that myself," remarked the bunny gentleis quite a different affair.

I don't blame him a bit. Why hen try to make him over according o her own pattern afterward? If Mr. Jiggs wants to smoke a pipe, and wear an old hat in the buse-it's his house, and his hat, and his pipe—isn't it? HE HAS SOME RIGHTS .

Of course, he needn't expect his wife and her friends to look upon him with melting eyes of foving ap-proval—but perhaps he can get llong without that. | smalle He certainly has a right to live Union.

his wife pretend that she likes the way he lives. Now, do you know what I would have done, or what I hope I would

have sense enough to do, if I'd been the Los Angeles woman? him sit in I'd have said, "Oh, horrors, what stockinged an old hat!" and "Dear me, do you feet and smoke a really like that pipe?" And I'd have pipe when there said it once, and then I would have looked at him and remembered how good he was to me that time I was pay

The Valley of Tomorrow

20. - The status of Mr. Hoover as a presidential possibility was not materially changed by his second letter. Like the first, it may have been intended to clear up everything; but it has been no

direction than the first one. That tendency to follow a personality because of some trait that evening sessions. He always drew a great crowd. has gained popular approval is responsible for People would come into town from long distances the Hower boom; but there being time for second to bear him. On one occasion an accident delayed thought, the furore appears to be cooling. There | his train and the managers received word that is undoubtedly a realization that a president, to he would be late in arriving. It was arranged successfully administer the mighty affairs of this | that the facts should be stated to the audience, government, must have defined policies which and that, if they were agreed, Duncan should fill have been more or less consistently held by the major body of citizens organized in a political party. There are two major parties and Mr. Hoover has been so impartial that newspapers on both sides are more interested in discussing | heveled and tired; but in order to reach his next which he belongs to than in any other phase of his appearance in the arena. The country is now having an experience with a president who acts with the idea that he is above his party. If that can be the situation when a chief magistrate started arowedly as the head of an established parce, how much more so is it likely to be when he expressly disavows a party affiliation, and is responsible to nobody? The Hoover boom was started by the Solurday Evening Post, of large circulation but of dilettante politics, and has been boosted by the New York World, hitherto the most partisan of Democratic sheets, neither of which has given it a status. Today it doesn't seem as impressive as when it was first sprang.

Hoover Delegation

It develops that there was a marked difference of opinion among Hoover's friends concerning the wisdom of naming a delegation to appear on the haltof at the California primary. Several of his advisers recognized that their candidate was of the greater cities at the end of the trail. being forced to risk his presidential prospects on the outcome of a confest in his home state. California was presenting no other candidate the situation would be ideal, but it was recognized that the former food administrator would be compelled to go up against a strong organization and a candidate who has repeatedly demonstrated his vote-getting powers in California. In addition. the enthusiastic Hoover supporters are handiupped by the title in their maddate to clote definitely with which political party he affiliates and whether he sanctions the use of his name in the primary contest. In a number of eastern of railroads, but no harm results in the long run. rates the Californian has frowned upon the naming of delegates pledged to his candidacy. It is generally recognized that Hoover might loom as a compromise candidate in either national convention, but his chances are likely to be seriously icopardized if his candidacy is repullialed in his home state. For these reasons the wisdom of naming a Hoover ticket in California was seriously debated but the ticket group prevailed, due, it is claimed, to the predominating influence of

Bryan Will Sacrifice Himself

political amateurs in the inner councils.

Heretofore the discussion circling around Mr Bryan has little more than comprehended the policy of his party as to prohibition. It has been conceded that he is to be the champion of the dry end, the wet end to be defended by Governor Edwards of New Jersey, supported by Tammany and the wet contingent generally. Of course, if Mr. Bryan shall be vanquished in this set to, he is not likely to figure in the subsequent proceedrigs. But evidently he does contemplate such confusion of his efforts. "As it is impossible to make personal answer to the letter" [requesting him to become an avowed candidate for the presidency |. "I give this one reply to all: I recognize it to be the duty of the citizen to respond to the call of his country in peace or war. Therefore, if the situation becomes such that my nomination is actually demanded, as in time of war a soldier's life is demanded on the battlefield. I would feel it my duty to consider it," etc. It is not a wide guess from this that Mr. Bryan has -hied in his hat. And it does not appear that he is perturbed over the prospect of being worsted in his prohibition fight. It is certain that his confident way of putting it has not added to the tranquility in other Democratic camps.

The Bryan Following

Mr. Bryan has commanded for more than twentythree times and enabled him to dictate the nom-Having made the presidency possible to Wilson, that he was overlooked, even as to a delegateship, will ascend a greater distance, and lands on the

AN FRANCISCO. March in the convention that nominated Wilson for a second term. But he comes back strong now, and promises to be a big figure in the convention here in June. I recall a conversation with the late Duncan McKinlay in which Bryan's strange hold on his party was discussed. Duncan, being fluent and well up on the Philippines through having been a member of the celebrated Taft party, was engaged for the Chautauqua circuit He was a sort of foil for Bryan-would speak at more successful in that the less important session in afternoons and Bryan would hold forth at the much anticipated in till the arrival of the belated star. The delay was longer than was expected, but the audience stayed. Finally, at a very late hour, the lecturer arrived in a linen duster and otherwise dis appointment he had to immediately entrain, and had only time to say bail and farewell. The assemblage cheered lustily and manifested no disappointment after waiting his coming for hours. They had never seen him, and had no more intimate knowledge of him than what they had heard and read. From which it is to be inferred that here is another case where distance lends enchantment.

Boost in Hotel Rates

The hotels here have again raised prices, but this can hardly be considered profiteering. Rates are still moderate compared with those charged in other cities "on the umin line." San Franeisco landlords like to remind that this comparison especially holds good as to hotels in the southern part of the State. Hotel business for many years was somewhat precarious. But it is now booming everywhere. This is as pronounced as to cities of the interior, off beaten paths, as No doubt this is partly due to the embargo on If European fouring, which has caused many who were wont to travel abroad to get acquainted with their own country; and of course the wellknown automobile penetrates to all corners of the State with its loads of sightseers, who require accommodation as they go about. In the days of more primitive transportation these did not so generally get off the beaten path. Their percopinations were mostly from one large city to another by train. The changed conditions doubtless affect the passenger truffic for were we not informed long before the automobile became the factor in transportation that it now is that passenger trains did not pay, and that some of them were rup at a loss?

The Mayor's Leave

The announcement on this page some weeks ago that the mayor had been granted leave of absence for a trip to Hawaii created surprise among those who did not know that such a visit was contemplated, and among those who did know that the fact should have got out. As a matter of fact, it was inside information, and the announcement that the Board had acted was premature. It was supposed that action would be taken before The Knave statement saw print. That it did not seems to have been due to Hetch Hetchy complications. At the last session of the Board the chief engineer announced that six weeks instead of two would be allowed for the reception and opening of bids on Hetch Hetchy work, the same to be opened April 23 instead of March 31. In the passing of certain amenities between members it was intimated that this amendment of the engineer's plans was made after the Board had granted the mayor leave of absence from March 2t to April 24, and in accordance therewith the change allows the mayor to make his trip and return in time to open the bids. The Retch Hetchy matter; however, remains one of mystery to the innocent taxpaver. He is trying to content himself by hoping that it is all right.

An Unusual Water Problem

Attention has been called to what is likely to happen, and what to some extent is happening, because of the appropriation of water from the Sacramento and San Joaquin rivers for irrigation purposes. More water has been filed on than flows in these streams throughout the irrigating and passed them around among the crowd the That faithful and considerable following that season. It was not supposed at the outset that enough would ever be used to make any differfive years; that has made him his party's nominee ence; but with rice-growing and the increase in other irrigation, together with the prospect of a ince another time, is still relied upon, and is be drought, there is already a situation. The salt ing given respectful consideration by his con water carried up by the tides was not noticeable temporaries. It is one of the singular things that I before the greater irrigation began above the con he can enjoy such prestige and yet clash so vio I fluence of the Sacramento and the San Joaquin. lently with other leaders. His run in with Sen- Later in the Sacramento it reached Collinsville. afor Hitchcock of histown state is in point, and now its effects are appreciable above Rio Vista. If the fresh water flow is further reduced and being elevated to the administration's highest, the tides will ascend still higher. In the San honor in return, he soon made himself de trop in Joaquin the tides have reached above Antioch, the administrative family and found it advisable affecting the water supply of that city. It is a to get out. He was so little in sympathy with the simple and certain proposition that as the fresh administration when it was firm in the saddle water flow in these rivers is lowered the tides

zone and their irrigation rendered impossible as it has heretofore been done. The taking of water to make the upper Sacramento valley fruitful will thus operate to make lands on the lower Sacramento barren. This would seem to be a new economic problem.

An Opportunity Missed

It has been-observed that during the time that all the railroads were under one control, when their equipment was used indiscriminately and the tracks of one line could have been and to some extent were utilized by others, it was a grand opportunity to establish real through train service between the Atlantic and the Pacific coasts-between New York and San Francisco, for instance. Express, running from Paris to Constantinople, as an example of through railroading such as has never been attempted in this country. These trains traverse the lines of several countries, making through operation infinitely more complicated than it would be wholly within a single country. The bugaboo of a trip to the Eastern States. especially to inexperienced travelers, is that change-at Chicago, or possibly St. Louis, and the necessary shift from one depot to another, always involving apprehensions as to missing connections, etc. When the railroads are under private not be surprising that nothing is done to mend such a matter; but when all the lines were under one direction it would have been easy to inaugurate a change that would have been popular and remembered to the credit of the national railway management-and which would probably have been continued when private control was resumed, having made a hit with the public.

Unscrambling Proceeds

The unscrambling of the railroads is proceeding, and is found to be fully as intricate a job as was expected. Equipment of different lines has been used in common, until it requires a surgical operation to separate and restore it to its rightful owners. From the outset it was seen by railroad: men that this was being done. There is hardly a question that if the roads had been permitted to run more on their own account, government coatrol being extended in a way that would have merely facilitated their operation instead of confusing it, much more satisfactory results would have been realized. The scrambling of the ticket offices has been so complete that it will not be undone for the present. The Santa Fe had just fitted up an elegant office at Second and Market; the Western Pacific was advantageously established at the upper corner of the Palace hotel, and the Southern Pacific had the most commanding location in town at the New Montgomery and Market street corner of that great bostelry; and they were all dismantled and a combination office opened on Post street. Though this is not to be broken up at present, the several roads will have charge of their own affairs: and as competition has already begun between them, it may be imagined that the arrangement will be fully as congenial as the well known effort of several families to live in common in the same house.

Discovery of Gold in California,

MONDAY, May 29, 1848.—Our town was startled out of its quiet dreams today by the announcement that gold had been discovered on the American Fork. The men wondered and talked, and the women too; but neither believed. The sibyls were less skeptical; they said that the moon had, for the last several nights, appeared not more than a cable's length from the earth: that a white raven had been seen playing with an infant, and that an owl had rung the church bell.

MONDAY, June 5 .- Another report reached us this morning from the American Fork. The rumor ran that several workmen, while exeavating for a millrace, had thrown up little, shining scales of a yellow ore that proved to be gold.

Monday, June 12-A straggler came in today from the American Fork, bringing a piece of vellow ore that weighed an ounce. The young dashed the dirt from their eyes, the old from their spectacles. One brought a spyglass, another an iron ladle; some wanted to melt it, others to hammer it, and a few were satisfied with smelling it.

Tuesday, June 20.-My messenger, sent to the mines, has returned with specimens of gold. He dismounted in a sea of upturned faces. As he drew forth the yellow lumps from his pockets doubts which had lingered till now fled. . . The excitement produced was intense and many were soon busy in hasty preparations for the

SATURDAY, July 15.- The gold fever has reached every servant in Monterey. None are to be trusted in their engagement beyond a week. General Mason, Lieutenant Lanman and myself form a mess; and we have a house and all the table furniture and culinary apparatus requisite: but our servants have run, one after another, till we are almost in despair. Even Sambo, who we thought would stick by from laziness if no other cause, ran last night; and this morning for the fortieth time we had to take to the kitchen and cook breakfast. A general of the United States army, the commander of a man-of-war and the

B. Children Royal Partition (177)

party. They worked precisely seven weeks and three days, and have divided \$76,844.-From the diary of Rev. Walter Colton, first American Alcalde of Monterey.

About Matches

The subject of friction matches would not seem to be one around which could be woven a dissertation of even ordinary interest; yet some facts regarding them have come to my attention that The Christian Science Monitor cites the Orient may be worth repeating. The Diamond Match Company is the big producer of this country; but it is well known that there are large importations of Swedish matches. During the war these suffered the fate of European commerce generally. and Japanese matches made their appearance. To what extent they are used here could not be learned, but the Palace hotel is supplied with them. The Fairmont, however, is supplied with those of the Swedish variety, and the packages bear the hotel's name-evidence that they are specially put up for that hostelry. But now comes into the field Mexican matches. At doesn't appear control and often with conflicting interests it may that they have come in any considerable volume but they are knocking at the door. Those that I have seen are taper matches. Mexico not being prolific in matchwood. They bear pictures of a Japanese maiden on the packages and are labeled "La Japonesa." thereby showing the different attitude entertained in Mexico toward the Japanese from that maintained in the United States; also suggesting that if headway is expected to be made in introducing them there will have to be a change in the label.

Montgomery St. On Its Way Back

The fact that the Hellmans have punchased another lot in the Montgomery street block, between Market and Sutter, at a top price, tends to bear out the idea that they are desirous of obtaining their Wells Fargo Nevada National Bank building. The corner of Sutter is owned by George Whittell, and real estate men are waiting to see what happens regarding it. It is rather indifferently improved, and cannot be fetching in a great income, but that isn't always a consideration with family for a long time. It belonged to Nichtle dition is well preserved-of never buying except at about a third the value, and never selling except at three times the value. However, it looks as though Montgomery street is to be rejuvenated. Important sites which have remained vacant since the great fire are to be built upon, and some that were inadequately improved are to be rebuilt, so that the street is in a way come back.

Relieving Market Street

The congestion on Market street is, fully as bad as the direst foreshadowing aneut the laving of two additional rail tracks thereon, and it is getting worse. At the ferminus at the city front conditions are simply terrifying to all who are afoot. The never ending flow of traffic carried down this main artery, and its counter current, not to mention the barricade of street cars, here encounter the cross current, and the mixup is something entirely bewildering and dangerand thus entice some of the traffic that now chokes Market street out that thoroughfare. At least two obstacles are in the way. One is the down. fact that the street car tracks to be removed are there by virtue of a franchise owned by the United Railroads, and their removal may not be the off-hand proceeding that seems to be contemplated in the plan, and the other is that all that is proposed in reducing the sidewalks and repaving as far as Twenty-fourth street, will cost a lot of money. The plan would help the Market street congestion some, but would not cure it.

Should Attorney-Gen. Intervene?

Considerable discussion is going on among attorneys and those having to do with legal tribunals anent the grand jury's probing of the police courts. Some of it leads to wonder why similar discussion is not carried on in official circles having to do with the probe, or at least by newspapers which detail the news. As it now stands, a police judge has been indicted and the whole bench is in such odor that the District Attorney who, less than three months ago had a seat upon it, would not seem to be qualified to serve as the prosecutor. Yet while this fact is plentifully discussed in private, I have not seen a single suggestion from any source that the District Attorney step aside and the State Attorney-General or some other qualified official take charge. Attorneys are loath to identify themselves with actions largely created in college societies. against other attorneys. It is explained that there

I have received a bunch of newspaper clippings

Eastern Opinion of Hadley

concerning Henry Hadley and his musical activities, drawn forth no doubt by the article on this page last week which discussed symphony matters. I recall interviewing one of the pillars of the San Francisco Musical Association shortly after Hadley had been supplanted by Hertz, when factions were expressing their feelings. I recollect that I came away with the idea that Hadley was not of the calibre considered necessary to give San Francisco a place in the symphonic-firmament; that he was meagre in abilities, deficient in attainments and without that energy necessary to get the fullest action out of an orchestra, or to properly arouse a community to its musical responsibilities. The press here has not had much reference to Hadley since he went away, seemingly letting it go at that; but the Eastern press has much to say about him and his professional activities. The New York Times of March 10 contains a notice of the final concert of a series given in that city by the Philadelphia Orchestra wherein an overture, "Othello," by Hadley, was produced, the composer conducting. The Musical Monitor prints a broadside, reproducing critiques from six leading New York and four Philadelphia papers of his opera. "Cleopatra's Night." produced at the Metropolitan Opera House March 3, the composer conducting. The foremost critics of the country -Huneker of the World, Henderson of the Sun-Herald. Fink of the Evening Post. Aldrich of the Times, accord their critical approval. It is seldom that approval by such authorities is so unanimous. Also there is an announcement of Hadley conducting his Second Symphony, "The Four Seasons," at a prior concert given by the Philathe entire frontage and improving it uniform with delphia Orchestra. Musical America has an account of a new composition by Hadley, "Princess Curious," libretto by William Thompson, who is described as a "traveler and explorer." the theme being suggested by the myths of aboriginal peoples he has encountered. The proponents of Hadlev in San Francisco evidently are in considerable Whittell. Besides, the corner has been in the feather that himself and his musical achievements should be accorded so much accounted in the Luning in those days when Montgomery was the greater music centers of the country, and perhaps great street, and has fallen to Whittell by inherit- are justified in assuming that San Francisco ance. Theaters Going Out Market

An advertisement which offers \$1.917.900 of stock of the Orpheum Circuit, Inc., bearing 8 percent interest, to finance the erection of "additional large theaters in a number of cities," of which five are named and one of these San Francisco, justifies discussion of what has been known for some time as efforts to secure an eligible site for a new Orpheum theater. Negotiations have been under way for the Market street frontage on the L formerly occupied by Hale Bros., near Sixth street. There is a small piece between that and the Hewes building which it is desired to incorporate in the new site. The O'Farrell street theater is proving inadequate to accommodate the expanding business; though it has not appeared whether both places are to be maintained. Theater men say that the frend is out Market, and ous. Several plans have been proposed for re- the fact that two mammoth theaters have already ducing this congestion. Nothing was done with been planned and financed well out on that thorany of them beyond the suggestion. Now it is oughfare is believed to have been one of the things proposed to remove the tracks from Howard, that stirred the Orpheum people to action. ${f A}$ street, reduce the sidewalks, repare the roadway larger theater at all events is desirable, for at almost every performance the present house is sold out, and applications for seats have to be turned

Stanford's Societies

Something of the seething conditions that prevail at Stanford is disclosed in a letter from an alumnus published in a campus paper and republished in the news columns here. The student body presents a solid opposition to Persident Wilbur's attack on the fraternities and sororities -his declared purpose to abolish them and to go back to the dormitory plan pure and simple. There are now some twenty fraternities, many with costly club buildings, and half as many sororities. President Wilbur's contention is that they destroy the unanimity of college life. A fraternity or sorority is too likely to become a clique. and in fact does become one in some instances. As to the club houses and other property within college precincts which these societies have acquired, the president's plan is to purchase them, thus acting fairly so far as the financial feature is concerned. It is such a purely college matter that the outside public takes account of it only. as the subject is brought home or discussed in casual circles by students; but these are emphatically in opposition, and are culisting the alumni in their behalf. It is represented the Wilbur plan will destroy college traditions, which are so

week and Mayor Davie has issued a proclamation calling upon citizens to aid in the first spring attack of the campaign to make Oakland a bright The weather is just right, and if the householder is going to got ahead of those broods of flies this

brush and fix up and paint up the little spots that you will find. And while you are doing it for our own sake remember that you are performing a civic duty, for you should put your place in good shape or the effect that it will have upo he city at large. Oakland is a city f homes and it should be made ty of well-kept homes.

to do it. There is no need of employing expensive help to do the work. Do it yourself. Responsible merchants will tell you what to do and what to use. It will cost little

and it will yield much.
You have been called upon by of ficials to do this "bit" toward helping the health and the appearance the community. Do it willingly

Heed the Call

CPRING is here. It calls for putting everything in apple pie or-Swing into line and heed its call. Take a tip from old Mother Nature. We do not want Mother Nature to outdo us in dressing up. Clean up and paint up.

Look around the premises and see where a bit of carpentery work not only will make things look better, but will add years to their wear. You will possibly also want to make things last a little longer by doing

a little painting here and there. Cleanliness, sanitation, beautifica tion, conservation and safety are all synonyms. They symbolize good citizenship, and good citizenship is good business. These things reduce ire insurance rates and fire losses, increase property values, remove unsafe buildings, make cleaner alleys, yards and homes, develop more attractive and safer homes and places of business, and produce a community spirit that permanently assures a cleaner, safer, healthier and more attractive city. Such a spirit, when once well started, is CLEAN UP AND PAINT UP.

Painting for "Paint-Up Week" Decorating—Paperhanging. Estimates Furnished—Fair Prices

J. Minster Phone Piedmont 6465, 1986 Shattuck ave. Res. Phone Berk. 308.

RULES FOR "CLEAN-UP-PAINT-UP WEEK

I-Do not allow rubbish to accumulate.

2-Do not mar or deface sidewalks, fences, buildings or public

3-Do not allow piles of ashes or trash to remain in back yards. 4-Do not throw anything on the sidewalks or streets.

5-Keep garbage cans covered up closely and destroy breeding places of germs, flies, etc.

Clean up yards, plant grass and flower seed, encourage love -Paint fences, sheds and all surfaces inside and outside which

are worn and shabby. -Clean up your home and spread the Clean-up and Paint-up spirit among your neighbors.

Paint Is Essential To a Sanitary Home | Man With Paint Brush By C. J. BATCHELOR Paint-up goes hand in hand with ean-up. When you have dusted

and swept and mopped the corners and the open spaces, put the paint brush to work. It will be easy to keep things clean then. A painted surface does not accumulate list like an unpainted ne does. Besides, dirt is more obvious on a painted more obvious on a painted surface does not accumulate dirt like cleanliness-which, you know, is

"next to godliness."
It is just as essential from the standpoint of economy to paint against wear and tear as it is to make a sure against fire. The man who permits his property to go without paint when it needs it, is practicing extravagance under the guise

By CHESTER H. MILLER.

The ever-increasing demand for moderate-priced and yet modern apartments in the Eastbay districts steady, a sustained effort. It wins has developed the idea of remodeling old houses. There are quite a number of such old buildings scat-lit took a lot of pounding, a prestered throughout the older parts of sure that nothing could withstand, this section—the income from which Dirt crushed to earth will rise hardly pays more than taxes, de- again. Crush it to carth once more! preciation and repairs—yet these And again and again, continuously. building can be changed from a lia- Tin cans will reappear and waste billity to an asset at a surprisingly paper will scamper just as merrily low cost as compared with the reve- as of yore—you must keep everlast-nue to be derived. Building costs ingly at it! Faint will lose its are not decreasing and an ever increasing population and demand for modern housing places good apart-

ments at a premium.

By careful and expert planning your property can be remodeled into modern apartments—at a much smaller cost than that of a new building containing the same num-

ber of apartments.
The owners of buildings of this type have viewed with apprehension their constantly decreasing revenue with increasing depreciation, a condition recognized as due to the fact that tenants today do not merely seek, but demand, modern housing.
The rapid and steady increase in manufacturing and the general busi-ness growth of the city is resulting in like increase of the population and workers. There is an ever growing demand for two and three-room apartments by those who seek housing. Due to the present high cost of building today it requires a considerable investment to erect an apartment house and to the man prepared to invest only a small amount this is a seemingly impossibility.

Why not use the old house to it best advantage and thus turn the building into good income property netting a satisfactory return. All at cost for less than that of a nev

The Clean Town is

the Healthy Town The following warning has been by the National Tubercuolsis

Association: "Tuberculosis and other gerin about by dirt and filth. The germs of tuberculosis cannot live where there is sunlight, cleanliness and fresh air. The scrubbing brush, soap and water, paint and white-wash are deadly enemies of tuberculosis. The casiest way to get rid of the germs that have nested in your house and around the premises is: CLEAN UP AND PAINT UP."

It long has been a well known

fact that dirt and disease walked hand in hand. Influenza, typhoid, pneumonia and other germ diseases exist because dirt exists. Get rid of dirt, and most diseases will be wiped

Cleanliness and the liberal use of the paint brush and mop and broom will make it hard for dirt to exist. If your town is spotless it will be a healthy town. And there is no bet-ter advertisement for a community than a low death rate.

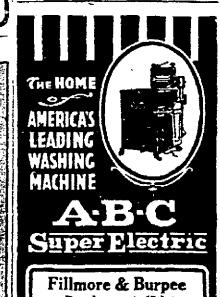

Belgian ranks fifth among the na-tions of the world as a market for American exports.

DECORATING AND PAINTING

Make Electricity **Your Servant**

Electricity has solved almost every housekeeping problem and brought to the average home such conveniences as have hitherto been enjoyed only by the wealthy.

WIRE YOUR HOME THIS SPRING

If you have ever experienced electrical comforts you already realize the luxurious convenience of brilliant, easily controlled electric light, to say nothing of the countless household helps available only to wired homes.

THE LOW COST

of wiring for electricity places it within the reach of everyone. A home that is wired rents easier, sells easier and is up-to-date. Old houses can be "ELECTRIFIED" very easily, no dirt, no confusion, and cost is very low.

NO HOUSE TOO OLD-NO JOB TOO LARGE

If you are contemplating electrical installation of any kind we can help you with your plans—that is our business. Our estimaters are at your service.

MAKE THE OLD NEW

Why disfigure your home by leaving the tarnished hardware and lighting fixtures in their present con-

Refinishing is Easily Done and Inexpensive

French 1919 Bank Deposits Best Yet PAINT UP!!

NEW YORK, March 20.—The de-posits in French savings banks during the first nine months of 1919 reached a record never attained before the war in an equivalent period, and yet the savings banks of France represent a very small fraction of the investments of the people. France is the thriftiest of nations and their large savings in 1919 are significant because the French, the people themselves, have accomplished wonders in the rebuilding of their devastated regions. That the United States is in comparison quite lacking in thrift is evidenced by many facts, one being that 41 per cent of the depositors in

LARMS Sives Works to the Work
SAN FRANCISCO and NEWARK, CAL.

Universal Service Staff Correspondent WASHINGTON, March 20.—One of the foremost statesmen in Washington is a woman-Mrs. Woodrow Wilson, wife of the President of the

When history comes to be written, and the true facts of the Wilson administration are finally set in the proper shades, people here in a position to know declare the "First Lady of the Land"will be seen to have been in deed, as well as in name, all the exalted title implies.

During the President's illness, and, what is less generally known, long before the President took to his bed, Mrs. Wilson has been to her eminent husband what a soft pedal is to a piano. She has been the buffer, if you like the simile better, between the chief executive and a very exigent world, pitiless in its demands and limitless in its expectations. MRS. WILSON ON GUARD.

Today it is something to brag about to get past the door of the President's private study. The President generally begins the day's work at his desk around 9:30 a. m. and Mrs. Wilson unobtrusively stands guard to see that he is not inter-

rupted save upon most pressing need. When Mrs. Wilson says "No," those about the White House do not insist. She is one person of feminine gender

Many stories are told of the deve tion of the President's wife.
On more than one occasion, it

said, she has refused to allow distinguished statesmen to carry wor rysome communications into the sick room. With strict orders from Admiral Grayson, the White House phyfor All World, Dies sician, not to allow any one to disturb AURORA- III., March 20.-Wil- ground and carried out her point instead of the callers seeing the Chief son who took the messages, delivered them to the President, got his replies and transmitted them, in person to those interested. EVEN DICTATES CABINET.

It is said that when John Barton Payne, now secretary of the interior, called at the White House in conpost, he did not see President Wilson in person. He saw Mrs. Wilson, and it was at her tea table that he accepted the portfolio.

Rear Admiral Benson, in a simiphase. The meeting will be under the Admiral and accepted, it is sald, the direction of the Oakland branch through Mrs. Wilson who is the real through Mrs. Which who have private secretary to the President. The well known "Joe" Tumulty is in fact, the public private secretary.

Every day Mrs. Wilson helps the President over the tolts of the physical country.

President over the jolts of the physical details of his office. She writes at his dictation sometimes, and other layor to get a divorce and marry price helps out. The now famous someone who is O. K. or otherwise. Jackson Day Dinner message from I have a win nature, and nave never the White House was first entirely made a good husband. Get some penned in longhand by Mrs. Wilson slow-going dub, for they make betbefore it went to the usual steno- ter livings and better husbands."

grapher to be typewritten.

ANXIOUS TO HELP HUSBAND. Mrs. Wilson is doing the work of the President. Far from it. He has never relinquished for a minute the

task of formulating and putting over his own ideas in all important mat-ters. But it does mean that at all times the "First Lady of the Land" has been present to take every pos-sible particle of physical burden off his shoulders. "Fate seems to have had a hand in

all this. To begin with Mrs. Wilson was known to have a positive distaste for, rather than a penchant toward, affairs of state. She never inquired nor interfered in such things. Circumstances, however, forced her to do what she had never thought of doing before. Her wifely interest in her husband was her guide, and she followed it, without wavering, night and day.

When the President went abroad and, later on, took the swing round the country speaking for the League of Nations which ended with his physical breakdown, Mrs. Wilson even then, it is said, with womanly band had taken upon himself. If anything happened to the President, she would be present. And when it came, unexpected by most people,

Boat Icebound, Man Escapes With Skis KLAMATH FALLS. Ore., March

20.—After becoming ice-bound several miles off shore near Rocky Point, on Upper Klamath lake and the engine of their motorboat had fialed, Paul and Louis Wampler, ranchers, escaped from almost certain death by fashioning skis from the seats of the boat, on which they were able to cross the ice field in safety. The boat is still held in the grip of the ice and will not be loosened for several weeks. The men said the ice seemed to form 0 .- After becoming ice-bound sevioosened for several weeks. The men said the ice seemed to form around their boat almost instantly, their engine going dead at the same moment

OAKS WILL PRESENT STRONGER TEAM THAN LAST SEASON

FOREMAN HOWARD IS CONFIDENT HIS TEAM WILL BE IN THE RACE

Pruning Knife Will Be Brought Into Play on Monday; Youn gsters Doomed.

By EDDIE MURPHY

ince the Pacific Coast League was given its name in 1903 the Daks have won but one pennant, and that was in 1912 when "Bud" Sharpe was at the helm. Within the next few weeks the Oaks will get started on their eighth season since they copped that pennant. and this time there will not be any big purses raised at banquets to be given the Oaks should they finish on top. It is the first time kince 1913 that a purse has not been promised, and it will not be because the castbay fans have given up hope that the Oaks will giver win another pennant, but because Frank Woodward, chairman of the committee to arrange for a big opening at home day for the coming season, along with President J. Cal Ewing, thinks that the raising of the purse before the season starts is a jinx.

Oak Hurlers

Early Reports Indicate Fine Fishing April 1

The fishing season opens one week from Thursday and the anglers are already fixing up their gear and preparing for a cast at the finny ones on opening day. As in past seasons The TRIBUNE will keep in close touch with conditions all over the State and these reports will be published at intervals. Anglers are invited to send in accounts of their trips, stating the conditions and best lure for the fish at their favorite haunts. The "Anglers' Nook" will be a feature of the sport columns throughout the season and with the co-operation of the fishermen will prove a valuable aid to the enemies of the trout family. Here are the latest reports eleven days before the season opens:

Jimmy Dundee won all the way from Young Brown across the bay Thursday night, but nobody but Dundee knows how sick a man Young Brown fought. The local kid was so weak he would have been knocked out in another pair of rounds. Jimmy admits that, and back of it all is a story of the artful methods of the promoters. As stated exclusively in The TRIBUNE Thursday, Dundee had a touch of the "fln" and a bad cold and was advised by his doctor not to box. Thursday morning Jimmy notified the promoters that he had a cold and could not do himself justice, and then the campaign began. Mysterious telephone calls, purporting to come from the district attorney's office in San Francisco, told Jimmy that if he did not go through with the Brown fight he would be barred for life in San Francisco. Then came other calls from anonymous "friends" who advised Dundee not to box.

LINCOLN THE GREAT COMMONER—A TRUE FRIEND—A SAFE GUIDE

PERHAPS no name in history will ever stand higher in the estimation of all classes of people than that of ABRAHAM LINCOLN.

Born of poverty and obscurity, self-éducated, working on farms, as rail-splitter, or as "hired man" at whatever job offered him the chance to make an honest living, "Old Abe" learned THE PEOPLE as no other man. HE WAS ONE OF THEM, and today his words of wisdom have been as beacon lights to many a poor man, and the worker-everywhere, when in doubt as to the course to pursue.

In a letter to the Workmen's Association of New York, Lincoln said, in part, in discussing property and labor:

"Property is the fruit of labor; property is desirable; is a positive good in the world. That some should be rich shows that others may become rich, and hence is just encouragement to industry and enterprise. Let not him who is houseless pull down the house of another, but let him work diligently and build one for himself, thus by example assuring that his own shall be safe from violence when built."

HERE was a typical American. He wrote the workmen, who knew him to be their friend, the TRUTH, as they knew he would, and it is upon the advice of such men that the LABORING MEN OF AMERICA have become the best paid and most intelligent of any in all the world.

This is a good counsel not only for laboring men and their wives, but equally good for all citizens and their families--- for the dangers of Bolshevism are threatening all.

Let all of us take the words of Lincoln to our hearts.

WILL OUR LABORING MEN ALLOW FOREIGN AGITATORS TO PULL DOWN THE HOUSE WHICH THEIR INDUSTRY HAS BUILT?

This article is one of a series. Be sure to read them all.

DEVELOPMENT

Official Records of the County Recorder Show That More Transactions Are Being Completed Than for Years

Many of the Purchases Are Evidently for Investment Upon the Theory That Real Estate Values Are Now Low

A greater number of realty transactions are being consumulated in Cakland at the present time than the real estate market has ever before witnessed as is evidenced by the official records of County Recorder G. C. Bacon. A comparison of the activity of the first two weeks in March with that of February and January indicate that the total of teh transactions during March will establish a new high record mark

During the first thirteen days of this month there were recorded 932 to double its capacity during the deeds and 597 deeds of trust. Computing the full month's report on the

highest record prior to that was in October, 1919, when 1880 deeds were recorded. Last month 1700 deeds were recorded, the highest record for February.

A/significant feature of the present market as reported to the Oak-land real estate board is the fact that there is a steadily increasing bercentage of transactions involving unimproved residence property on some of which homes are being built r are being plunned in the immediate inture.
Some of this property is being

purchased for investment by persons company will work on asparagus and urer. H. P. Chan; auditor, who have made a careful analysis of other vegetables and upon pind-sales manager, J. B. Kent. the market price conditions and find that unimproved residence lots in practically all of the eracts of this gity are being offered at lower prices than has existed for several years and lower than probably will ever obtain again. This real estate price condition has been forced by the high cost of hailding and the fact that the chief feature of the market or Several years has been improved [

CANNING PLANT COMPELLED TO DOUBLE CAPACITY IN ONE YEAR GFT

View of the plant of the Western Canning Company in Emeryville that has just been compelled to double its capacity, after only one year of operation, and which is contributing toward the making of Oakland the canning center of the State of California.

The Western Canning Company Will Open the Season of 1920 With Enlarged and Improved Facilities

an Eastbay institution that, though it is to be ranked with the new industries of 1919, has been compelled first year of operation. This doub-Tebruary daily record basts, it is estimated the more than 2000 deeds yet quite complete, though it will have been placed of record during March.

The broad of the basts it is estimated the more than 2000 deeds yet quite complete, though it will be by the time the 1920 canning seating March. The highest previous record in on at the plant at Park avenue and the history of the county was 1900 Harlan street in Emeryville, but this deeds recorded in January and the work is mostly on the special features and additions the work is presented. ures and additions, the work upon the main factory being finished. The Western Canning company is financed exclusively by wealthy Chi-

nese. Something over a year ago they purchased seven and a half acres of ground in Emeryville and erected a canning plant that was operated for the first time last year. So successful was the first year's run that it was decided to double the capacity of the plant, which was during this winter. Last year the output consisted of 250,000 cases of tomatoes and California fruit. During the coming season the Thomas Nom; secretary and treas-company will work on asparagus and urer. H. P. Chan; auditor, H. S. Taft;

The Western Canning company is apples. For this run of goods the company has its own ranches. They own large holdings upon Andrus and Sherman islands in the delta region pineappies. The company is a large but does not depend entirely upor this source of supply.

The importance to Oakland in this plant is the concentration in this section of the extensive canning operations of the people behind all of this work.

The new plant is modern in every respect and the utmost care has been taken to see that working and housing conditions are perfect. Homes are even provided, and the most claborate caleteria and dining service is maintained, together with rest and amusement rooms, hospital and every convenience for and safety.
The Western Canning company is

one of the institutions that is makng the Eastbay industrial section the canning center of the state. The officers of the institution are: President, C. Hing; vice president,

Lakeshore Highlands Building Program Is Augmented As Demand For Homes Increases

Because home-buyers want the beautiful, modern, popularly-priced homes in Lakeshore Highlands faster than the program of "Every Five Days a New Home Starts" allows, the Walter H. Leimert Company has been required to add to its original schedule by interesting other builders in erecting additional homes as they are needed.

The first series of houses to go into Lakeshore Highlands, independent of the regular Leimert program, will be started with the laying of foundations for nine homes on Mandana Boulevard. They will be built by George L. Mohr, well-known Oakland builder.

Other series are to follow as rapidly as arrangements can be made. Builders are eager to participate in the tremendous advantages of the great Leimert campaign which has been designed to reduce building costs by several hundreds of dollars per home through the cutting out of sub-contractors' profits; big reductions in material prices by wholesale buying, and practical elimination of builders' overhead by handling the details of building through the Leimert realty office. Builders share in all of these advantages through the co-operative scheme of the Leimert Company to aid in meeting the demand for homes in Lakeshore Highlands.

Make Your Reservation for Home

Plans for other series of homes, to be put up in addition to the schedule of "Every Five Days a New Home Starts," are in progress now. Reserve your home now. By so doing the home can be built that is exactly suited to your needs and you can save in cost of construction.

Besides the comparatively low cost of the Lakeshore Highlands homes-which sell from \$7000 up -there are many other advantages in the houses and in the property which have tremendous weight with buyers and are responsible for the unequaled popularity of the tract.

The homes are built of the finest materials in the most substantial and workmanlike fashion. The exterior design and interior arrangement of the homes are the work of the West's finest architects. The property is completely developed. Its scenic environment is ideal and its location with relation to the surrounding territory is perfect, being but ten minutes by street car to the heart of Oakland's shopping district and only thirty-six minutes by direct Kry Route train to San Francisco.

Lakeshore Highlands is permanently restricted, insuring home-owners for all time against garages, apartment houses and other buildings which destroy the value of a residence district. It is the only East Bay property carrying permanent restrictions.

From San Francisco take the Lakeshore train at the Key Route mole and get off at Lakeshore Avenue. From Oakland take the Lakeshore Avenue carline or drive out Lakeshore Avenue to the main entrance to Lakeshore Highlands—at Lakeshore Avenue and Mandana Boulevard. —Automobiles are at your service if you telephone the office.

Select Motor Cars Unusual Values

SELECT

(Webster's definition of the word select.) Select-(se-lek't), adj. More valuable or excel-lent than others; chosen or picked out as more valuable than others; nicely chosen; choice; enperior; vt., to take by preference from among

(This is our understanding of the word select. We abide by the definition in both buying and

1918—PIERCE-ARROW—1918

Series 4-38, 3-passenger roadster; latest model; has been driven very little; car is new in every respect. Will give factory guarantee. New cord tires. Most beautiful Pierce Arrow in Northern California. Remarkable value. Terms if required.

1920-MERCER-1920

Two-passenger roadster; run only 5000 miles. This car is like new in every respect. All cord tires with one extra. Has had the best of care. Will guarantee. We consider this an exceptional Original cost \$5400. Price, \$4250.

1914—LOCOMOBILE—1914

Series 43, 5-pass. This car is in splendid condition, having been completely overhauled at the Locomobile shops. Will give service as new. New top with plate glass back: also paint and tires new; 4 extra tires; also other extras including bumper. An exceptionally good buy. Price \$2600

1918-STUTZ-1918

Four-passenger. Has the powerful 16-valve motor; new paint, Stutz red; tires are new with two extra; also two extra wire wheels. Appearance and condition as new. The price, \$2500.

1915—CADILLAC—1915

Seven-pass. Has been overhauled completely; newly painted; equipped with 4 new cord tires, also 2 extras, Macbeth lenses; looks like and will give service as new. Price \$1250.

1919—CHANDLER CHUMMY—1919 This car is in splendid condition; will give service as new in every way. Has been driven very little; tires like new, with one extra. \$1800.

1918—OLDSMOBILE—1918 Five-passenger; newly painted and overhauled thoroughly; 5 new cord tires, also other extras.

Guaranteech in every respect. A wonderful buy for the price of \$1400. 1918—CHANDLER TOURING—1917 We have two of these splendid light sixes in stock. One a 1917 and the other a 1918. Both seven-pass tourings. Either car is a splendid buy at price asked. Perfect mechanical condition:

good tires and paint. Have been driven just enough to run them in nicely. Will guarantee either car as perfect. The price: 1917 model \$12av. 1918 model; \$1350.
